PART I

Land Compensation in connection with the Cauvery Reservoir Project.

No R. 6677-8—L R. 25-15-12, DATED 12TH JANUARY 1916

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE

GENERAL AND REVENUE DEPARTMENTS.

READ—

Letter No 7131, dated 7th December 1915, from the Revenue Commissioner in Mysore, submitting for orders copy of letter No 580, dated 26th November 1915, from the Deputy Commissioner, Mysore District, requesting that the Special Land Acquisition Officer, Cauvery Reservoir Works, may be authorised to amend the awards passed by him or to pass supplemental awards in special cases of hardship such as where the land granted is subsequent to the award, found to be rocky or otherwise unfit for cultivation and recommending sanction to the proposal as it merely amounts to exchanging lands

---

Order No. R. 6677-8 L. R. 25-15-42, dated 12th January 1916.

Government are pleased to authorize the Special Land Acquisition Officer to award suitable fresh lands to the expropriated raiyats in cases where the lands originally granted under his award are subsequently found to be or are rendered unfit for cultivation through causes connected with the Cauvery Reservoir Works.

2. If due care is exercised in selecting the lands for exchange before making the award, the occasions for making the fresh grants of land will be considerably minimised.

No. R. 6680-3—L. R. 25-15-43, dated 12th January 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Letter No. 7190, dated 4th December 1915, from the Revenue Commissioner in Mysore submitting for orders proposals received from the Deputy Commissioner, Mysore District, for the grant of compensation for loss of crop to certain ryots displaced by the Cauvery Reservoir Works.

Order No. R. 6680-3—L. R. 25-15-43, dated 12th January 1916.

The Land Compensation Scheme Committee recommend that crop compensation for dry, wet and garden lands coming under submersion and for lands acquired for the channel works during the current year may be granted to the raiyats at rates arrived at with due regard to circumstances of each case such as prevailing rates of rent, situation, quality of land, etc., subject to a maximum shown below:—

Dry land	...	...	Rs 5 per acre
Wet land	...	...	4½ times the survey assessment per acre
Garden land	...	...	6 times the survey assessment per acre.

It is also proposed to remit the assessment and local cess on such lands. The Revenue Commissioner considers that it would be better to fix a proportion on the yield of the land instead of on the assessment.

2. Government consider that the maximum proposed by the Committee is reasonable and are pleased to approve of the same. The exact amount of compensation in each case should, of course, be settled having regard to all the circumstances thereof.

3. The amount of Rs. 1,05,000 estimated to be required for the purpose should be debited to the head "Compensation" in the Cauvery Reservoir budget.

No. R. 7088-97—L. R. 42-15-17, DATED 22ND JANUARY 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Government Order No. R. 1272-81—L. R. 98-10-5, dated the 22nd August 1911, directing that extracts from the District Maramat Administration Reports sent to the Chief Engineer by the Deputy Commissioners be appended to the District Revenue Administration Reports for being scrutinized by the Revenue Commissioner.

READ ALSO—

2. Paragraph 12 of Government Order No. R. 5042-89—L. R. 408-14-1, dated the 11th December 1914, prescribing submission to Government, through the Revenue Commissioner of a special annual report on the working of the recent Rules under the Minor Tanks Restoration Scheme in each district.

3. Government Order No. R. 2507-16—L. R. 42-15-6, dated the 1st September 1915, observing that in all matters connected with the working of the Minor Tanks Restoration Scheme, the controlling authority is the Revenue Commissioner.

4. Memos Nos. 8324 and 8957, dated the 21st August 1915 and 16th September 1915, from the Chief Engineer of Mysore, forwarding copies of his letters Nos. 8323 and 8956, dated 21st August 1915, and 16th September 1915, respectively, to the Revenue Commissioner in Mysore, regarding the propriety or otherwise of the annual District Maramat Administration Reports of the Deputy Commissioners being still reviewed by the Chief Engineer as before even under the altered conditions.

Order No. R. 7088-97—L. R. 42-15-17, dated 22nd January 1916.

Under the standing orders of Government quoted above the Deputy Commissioners of Districts have to submit three reports as detailed in the margin. As the special report prescribed in Government Order dated 11th December 1914, will, to a large extent, overlap that to be submitted in accordance with the Government order of the 22nd August 1911, Government direct that hereafter the latter report be confined to such maramat matters as are not included in the Minor Tanks Restoration Scheme (such as repairs of civil buildings, etc.). The Special Reports on the Tank Restoration Scheme prescribed in the Government Order of the 11th December 1914, will be reviewed by the Revenue Commissioner and submitted to Government with the review. He will however give only the essential information in the Revenue Administration Report, as hitherto.

1. District Maramat Administration Reports to the Chief Engineer.
2. Extracts thereof to the Revenue Commissioner.
3. Special reports on the working of the Minor Tanks Restoration Rules.

Revision Settlement of the Belur Taluk.

No. R. 6981-6993—L. S. 45-14-5, DATED 20TH JANUARY 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Letter No. 116, dated 18th March 1915, from the Superintendent of Revenue Survey and Settlements in Mysore, forwarding for sanction copy of Report No 697, dated 23rd December 1914, from the Deputy Superintendent, Mysore Revenue Survey, submitting proposals for the revision settlement of the Belur Taluk as it stood at the original settlement. (Accompaniment I)

2. Letter No. 3825, dated 13th September 1915, from the Revenue Commissioner in Mysore, agreeing to the above proposal. (Accompaniment II)

3. Letter No 60, dated 16th September 1915, from the Superintendent of Revenue Survey and Settlements in Mysore, forwarding copies of the above and of letter No. 1225, dated 20th April 1915, from the Deputy Commissioner of the Hassan District, recommending the adoption of the rates proposed by the Deputy Superintendent. (Accompaniment III)

Order No. R. 6981-6993—L. S. 45-14-5, dated 20th January 1916.

The proposals relate to the revision of the assessment of 329 Government villages of the Belur Taluk, as it stood at the original settlement, introduced in the year 1877.

2. The area of the taluk is about 282·5 square miles and it is benefited both by the south-west and north-east monsoons. The eastern portion is maidan, while the western half partakes of the nature of the malnad tract.

3. The soil is generally poor except in the maidan parts.

4. The average annual rainfall is about 33 inches in the maidan and 70 inches in the malnad tracts.

5. The taluk is well provided with good roads and three new ones have been added to the five which existed at the time of the original settlement.

6. Owing to the undulatory nature of the country there are not many large tanks and the main source of water-supply is the numerous chains of small tanks, wells and channels.

7. Rice is the staple crop throughout the taluk. Sugar-cane and coffee are also grown to some extent.

8. The population of the tract steadily increased till 1901. During the subsequent decade there was a decline due to the prevalence of plague and fluctuations in the movements of the cooly classes.

9. The tract has steadily progressed in prosperity since the original settlement. The prices of produce have gone up between 33 and 100 per cent, means of communications have been improved and lands have risen in value. The extent of occupied dry, wet and garden lands has increased by 41, 26 and 4 per cent, respectively. The agricultural resources of the people have similarly increased. The past revenue history of the taluk is also one of steady and sustained improvement.

10. At the original settlement, the wet lands were classified into four groups and it is now proposed to divide them into five, the original third group, which was in two different blocks, being split up into two, owing to the differential advantage of proximity to the Railway. The old classification of dry lands into six groups is proposed to be left undisturbed.

No. R. 6981-9693—L. S. 45-14-5, DATED 20TH JANUARY 1916.

11. The following statement shows the groups, the maximum rate proposed by the Deputy Superintendent, Mysore Revenue Survey, for each, and the average rate obtained thereby:—

Land	By original survey as per collections of 1911-12			By revised survey		
	Group	Maximum rate	Average rate	Group	Maximum rate	Average rate
		Rs. a. p.	Rs. a. p.		Rs. a. p.	Rs. a. p.
Wet	I	8 8 0	3 14 8	I	9 0 0	4 2 4
	II	8 0 0	3 14 2	II	8 8 0	4 2 1
	III(*a*)	7 8 0	4 13 1	III	8 0 0	5 2 7
	III(*b*)	7 8 0	3 3 3	IV	7 12 0	3 5 1
	IV	7 0 0	4 11 1	V	7 4 0	4 14 1
		Total average..	3 12 5		Total average...	3 15 8
Dry	I	2 4 0		I	2 10 0	
	II	2 0 0		II	2 4 0	
	III	1 10 0	0 11 5	III	1 14 0	0 12 7
	IV	1 4 0		IV	1 4 0	
	V	1 0 0		V	1 0 0	
	VI	0 12 0		VI	0 12 0	
Garden	...	16 0 0	5 1 11	...	12 0 0	4 9 7

12. The maximum wet rates in all the groups and the dry rates in the first three groups are proposed to be slightly raised, while the maximum garden rate is proposed to be reduced from Rs. 16 per acre to Rs. 12. These proposals are expected to result in an increase of 10 per cent or Re. 0-1-2 per acre in the case of dry lands, five per cent or Re. 0-3-3 per acre in the case of wet, and a decrease of 10 per cent or Re. 0-8-4 per acre in the case of garden lands. Taking the average for all classes of lands, there will be an increase of Re. 0-1-11, *viz.*, from Re. 1-12-7 to Re. 1-14-6 per acre, resulting in a net increase of Rs. 7,301 for the entire taluk, which works out to only 5 per cent over the collections for the year 1911-12.

13. The Revenue Commissioner and the Deputy Commissioner, Hassan District, consider that this increase is reasonable and may be sanctioned. The former officer observes that though the prices have steadily and appreciably risen since the time of the original settlement, it is not possible to state how far the average raiyat has been benefited thereby, as the cost of living has simultaneously increased a great deal and new sources of expenditure are springing up.

14. Government are inclined to think that the proposed rates are moderate but in view of the decline of the population of the taluk during the last decade and the necessity to stimulate the prosperity of the malnad tracts, they are pleased to sanction the proposals of the Deputy Superintendent of Survey.

15. The revised rates will be announced as soon as possible and will be brought into effect from the year 1916-17, with the usual guarantee of 30 years.

No. R. 6981-6993—L. S. 45-14-5, dated 20th January 1916.

ACCOMPANIMENT I.

Letter No. 116, dated Bangalore, 18th March 1915, from D. K. Darashah, Esq., B.A., Superintendent, of Revenue Survey and Settlements in Mysore, to D. M. Narasinga Rao, Esq., B.A., B.L., Offg. Secretary, to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments.

I have the honor to forward herewith for orders of Government six advance copies of Report No. 697, dated 23rd December 1914, from the Deputy Superintendent, Mysore Revenue Survey, submitting proposals for the revision of assessment of 321 Government villages and 8 kavals of the Belur Taluk as it stood at the original settlement.

2. It is unnecessary for me to report—the details embodied in the report, since the proposals have been formulated after a full discussion with me of all material points.

3. The tract under report partakes of the nature of both the malnad and maidan country, and is benefited by the south-west as well as the north-east monsoons. The improvement in communications and in agricultural resources since the original settlement, the increase in population, the enhancement in the value of land, the high prices of produce, and above all the expansion of cultivation, all indicate substantial progress made from the agricultural standpoint.

4. It will be observed that the original third group for rice land was comprised of two distinct blocks of territory, one of them in the east centre of the taluk, made up of the well known Halebid and other adjoining villages marked blue on the map, and the other in the extreme west. The two B ks are now treated as to separate groups the purpose being to give the western block a more lenient treatment by raising the old wet maximum by only 4 annas, in consideration of the relatively low density of population in the tract. The eastern block which on the whole is more favourably circumstanced has had its maximum increased by 8 annas.

5. The old grouping for dry land has not been disturbed. A moderate increase of 6 annas has been made to the maximum of the first group where both soil and climate usually combine to bring good returns, and a suitably graduated increase of 4 annas has been made to the maxima of each of the old 2nd and 3rd groups. This class of cultivation becomes indifferent in the 4th and 5th groups, whilst in the 6th group practically all dry land is held for pasture and little else. In the case of these three groups therefore it has not been considered advisable to enhance the rates now in force.

6. The old maximum of Rs. 16 for the tank gardens has been reduced to Rs. 12, and the well gardens have been treated under the rules of 1902. The Deputy Superintendent's report shows in detail the effects produced by this measure.

7. The net total result of the proposals is that a modest increase of Rs. 7,301 will accrue to the revenue of the taluk, that is, 5 per cent of the collections of the year 1911-12, obtained by means of small increments to the dry and wet rates, carefully distributed over the several groups. At the same time, I am of opinion that the present rates cannot be pitched higher without making the raiyats feel them to be burdensome.

8. I beg that Government will be pleased to sanction these proposals.

9. As usual, copies of the report with appendices and map have been forwarded to the Revenue Commissioner and to the Deputy Commissioner, Hassan District, for an expression of their opinion and I shall forward the same to Government with such remarks as I may have to make, when I hear from those officers.

ENCLOSURE TO ACCOMPANIMENT I.

Letter No. 697—dated 23rd December 1914, from C. Rajagopala Charlu, Esq., B.A., Deputy Superintendent, Mysore Revenue Survey, to D. K. Darashah, Esq., B.A., Superintendent, Mysore Revenue Survy and Settlements, Bangalore.

I have the honor to submit proposals for the revision of assessment of 321 Government villages and 8 kavals of the Belur Taluk, as it stood at the original settlement.

2. At the original settlement which took place in the year 1877, there were 320 Government villages and 9 kavals. Out of the 9 kavals, Hosahalli Ammanagudi kaval has since been converted into a village, and that accounts for the decrease in the number of kavals and an increase in the number of villages. In addition to the abovementioned Government villages, the present proposals also relate to the eight inam villages shown hereunder:—

1. Sarva Inam, Mudgere
2. Jodi Inam, Somasettihalli
3. Jodi Inam, Malanahalli
4. Sarva Inam, Bommadihalli
5. Sarva Inam, Settihalli
6. Jodi Inam, Kandavara
7. Jodi Inam, Mylahalli
8. Sarva Inam, Yelahanka

These inam villages have been surveyed in detail and classified, and their settlement will be taken up along with the Government villages.

Since the original settlement there have been some territorial changes: the extreme western portion of the taluk containing about 28 villages was added to the present Mudgere Taluk; about 9 villages of the Hassan Taluk were tacked on to the south-eastern portion, and the northern portion received an addition of 32 villages from the Chikmagalur Taluk. The present report deals with the taluk as it was originally settled with the addition of eight inam villages mentioned *supra*.

3. *Boundaries.*—The taluk is bounded on the north by the Chikmagalur Taluk and a portion of the old Banavar Taluk; on the east by a portion of the late Harnahalli and Hassan Taluks and on the south-west by the Manjarabad Taluk.

4. *Position.*—The taluk under report has an area of about 282·5 square miles. It is situated on the north-western portion of the Hassan District with an irregular shape in its configuration. It bulges out in the west and tapers to the north-east. Its length from east to west is about 30 miles and north to south about 20 miles. The town of Belur which is situated in 13° 10″ north latitude, 75° 15″ east longitude, is the headquarters of the taluk and is situated on the right bank of the river Yagachi.

5. *Physical features.*—The maidan portion of the taluk has extensive kavals, and we also find here and there patches of land covered with wild date. The river Yagachi divides the taluk more or less into two halves. The eastern half is all maidan and the other half to the west of the river is styled malnad and this begins 4 miles from Belur Town. The river Hemavati which claims Yagachi as its tributary runs as the western boundary of the taluk to a distance of about 6 miles. The extreme western portion of the taluk, now forming a portion of the Mudgere Taluk, emphatically presents peculiarities of the malnad region. The scenery in this part is splendid and serene. There is not a square mile of level ground in the whole of this tract which abounds with high mounds, knolls and hills. The high mounds and hills are mostly utilized for coffee cultivation. There are extensive and fertile valleys in this region where coffee and cardamom find their habitation owing to the existence of the two essentials of shade and water-supply. The western portion of the taluk which commands deep valleys is grown with rice.

6. *Drainage.*—The drainage of that portion of the taluk to the east of the river Yagachi and the south-east of the taluk, forming portions of Andeli and Lakkunda maganis, falls into the Yagati. The drainage of the region round about Halebid and Adgur falls into the Yagachi halla in the Chikmagalur Taluk. The west and south-west of the taluk are drained by the Hemavati river into which many small streams empty themselves.

7. *Forests.*—The existence of forests and their character mainly depend on climatic conditions of temperature and rainfall. That portion of the taluk to the east of the Yagachi river is sparse in vegetation. The portion of the taluk to the west of the Yagachi river and especially the extreme western portion bordering on Manjarabad and Chikmagalur Taluks is luxuriant in vegetation and is dotted all over with coffee plantations. Broadly speaking, there are in Mysore 3 forest belts: the evergreen, the mixed and the dry. The first is met within the extreme western portion of the taluk; the second in the region within a radius of 5 miles from Belur Town. The eastern and the north-eastern portions of the taluk may be styled as the dry belt. Forest conservancy effects many changes among which the natural influence of the tracts on the drainage of the country is probably the most important. The several kavals in the taluk confined to the maidan portion more or less present the appearance of scrub jungle.

8. *Flora.*—The flora of the taluk is not interesting. The avenue trees are chiefly tamarind, goni, ala, neem and honge; among shrubs of industrial importance may be named thangadi and seegé.

9. *Geology.*—The eastern and north-eastern portions of the taluk contain low ranges of granite hills. Pot stone is extensively met within the taluk, chiefly in the hills round about Halebid and in large quantities in the hills to the east of the Halebid tank. Out of this stone the temples at Halebid and Belur are carved. In the taluk the building stones we find are the ordinary gneiss rocks which flake under heat into slabs of vaying thickness; and such stones are found here and there.

10. *Archæology.*—The taluk is full of archæological interest owing to important temples in it. The temples at Halebid and Belur will attract anybody's attention. In spite of the attenuations and desecrations, they still present a wonderfully striking and magnificent appearance. Of ruined and deserted temples, dating from far off times, we have plenty in our province; but there are few that can excel the architectural beauty and colossal grandeur of the temples at Halebid and Belur. The principal features are not mere solidity and vastness. Their merits consist in the proportions and in the endless variety and richness of sculpture. The vaulted roofs inside the temples suggest ideas not only of unbounded wealth of the founders but of high refinement in arts. The endless variety of the stone images in these temples illustrates the type of ancient days of antique costumes and early realities. In both the temples we notice that there is a unity of design, proportion and execution and this is remarkable.

11. *Soils.*—The soils in the malnad portion of the taluk are generally poor and show improvement as we go towards the east of the taluk. They are poor in quality and vary from whitish grey to dark reddish brown. It is only in some villages such as Halebid, Adgur and Andeli, that we come across dark brown or black soil. In rice lands there is generally a mixture of sand and clay.

12. *Rainfall and climate.*—The average rainfall of the tract in question is about 51 inches according to the figures furnished by the taluk. But the maidan and the malnad portions of the taluk differ much in their meteorological conditions. Roughly speaking, it may be said that the average rainfall in the plains is about 33 inches and in the malnad about 70 inches. In the malnad portion the climate is generally cool but not healthy; in the maidan portion we have a warmer climate and experience better health. During the south-west monsoon from May to about the middle of August, rainfall is generally continuous with breaks now and then. The taluk has also the benefit of the north-east monsoon; and the heavy rains in September and October are of value in filling the tanks in the maidan region.

Station.	Average.
Belur	... 34·40 for 42 years.
Halebid	... 27·49 for 8 ,,
Arehalli	... 71·57 for 8 ,,

There are three rain-gauge stations in the taluk in the marginally noted places.

These stations properly represent the different portions of the taluk and they are enough for all practical purposes.

13. *Communications.*—The taluk is well provided with good roads. At the time of the original settlement the taluk had the following roads :—

1. Banavar-Belur road.
2. Road from Belur to Chikmagalur.
3. Road from Belur to Mudgere.
4. Road from Belur to Saklespur.
5. Road from Belur to Hassan.

Since then three new roads have sprung up: one from Bikkod to Saklespur *via* Arehalli, another from Belur to Mudgere *via* Chikanahalli and a third from Chikanahalli to Arehalli to join the Belur-Saklespur road. There is one important cart-track from Halebid to Hagare to join the Belur-Hassan road improved at the expense of the District Funds. All over the taluk there are other cart-tracks fairly good for all practical purposes. The nearest Railway Station is Banavar, 28 miles from the town of Belur. There are two Post Offices in the taluk; one at Belur and another at Chikananalli and the work in them is annually increasing.

14. *Markets.*—Markets are held at the following places :—

1. Tholalu.
2. Halebid.
3. Belur.
4. Gonibid.
5. Gendahalli.
6. Chikanahalli.
7. Bikkod.

The above markets adequately meet the requirements of the raiyats and coolies of the coffee estates. Bikkod, even now, continues to be the most important weekly market in the taluk. Outside the taluk the following markets are resorted to :—

1. Chikmagalur.
2. Javagal.
3. Mudgere.
4. Saklespur.

15. *Exports and imports.*—Rice, jaggery, tobocco, pepper, cardamom, arecanut and coffee are the chief items of export. Piece-goods, salt, saltfish, metals from the coast, kerosene oil, and kamblis from the Chitaldrug District are the chief articles of import.

16. *Manufactures and industry.*—There are no manufactures of any importance. The industry of making brass pots in the town of Belur is fast sinking. Coarse cloths and kamblis are woven in some of the villages and they are not enough for local consumption.

17. *Irrigational resources.*—(1) *Tanks*—Owing to the undulating nature of the taluk there are very few large tanks. The taluk depends upon the numerous chains of small tanks below which rice is generally cultivated.

The following tanks may be considered as important as they are large and command tolerably extensive atchkats :—

1. Halebid.
4. Mattigatta.
3. Kodihalli.
4. Adgur.
5. Chatchathalli.
6. Gonisomenahalli.
7. Pandithanahalli.
8. Ponnathapur.
9. Ibbidu.
10. Gorur.
11. Andele.

The map of the taluk exhibits numerous small tanks studded all over the taluk and I have not come across any locality where new tanks can spring up. That the raiyats had a wonderful eye for irrigational possibilities clearly manifests itself and this they brought to bear in selecting sites between two ranges of hills or eminences of valleys where a small earthen bund would throw back a stream and provide them with water for irrigation.

Tanks were formed in some places according to the accidents of the ground. Embankments were thrown across the gorges of the valleys high enough to retain the volume of water proportionate to the irrigable area situated below.

The repair of minor tanks by raiyats is being neglected. In the modern days the power to concert measures for the common interest has broken down owing to the partial disruption of the village system, the substitution of individual for village interest and the prevalence of faction.

(2) *Rivers and channels.*—As already pointed out, the river Hemavati touches only a portion of the taluk. The river Yagachi taking its rise in the hills round about Chikmagalur passes through the middle of the taluk and has a tributary named Byrangihalla which joins it in the north. Yagachi and the smaller streams falling into it supply several small channels. The most important channels are :—

1. Bommadihalli channel.
2. The Kittur channel and
3. Mattigatta channel.

None of these are kept in good order. Considerable activity has been shown of late years in suggesting and maturing projects for utilizing the waters of rivers; but the difficulties are not trifling. The river Yagachi has so slight a slope that its fall would not gain much on that of a channel, while the steep transverse slope of the valleys prevents channels from getting to any distance from their parent stream. The anicut near Hosahalli, originally intended to feed the Halebid tank and which is now in ruins, is an illustration of the above irrigational difficulty.

The river Yagachi is filled at the time of rains; but during the dry months it is a mere thread. If we aim at any irrigational scheme which would be of use to the taluk, the two objects to achieve are the retention of the copious supplies which run to waste during the rains and the irrigation of the barren lands in the side of valleys. This will be the work of the future, and proper and skilful efforts in this direction will not be considered as wasted.

The seasonal character of the rainfall makes it a matter of prime importance to store water for use in the dry season. A great deal of improvement has to be effected with regard to the distribution of water below large or small tanks. The duty of seeing that water from Government irrigational works is properly distributed devolves upon the Revenue authorities and much remains to be done in this direction. The rich and influential raiyat has it all his own way and the poorer raiyat is generally the sufferer. The system of annual clearance of silt in channels is necessary. This has to be done by the raiyats and it has greatly fallen into desuetude and it has been found well nigh impossible to enforce the practice. No activity is required for the prosecution of new works of irrigation. The activity has to be confined to existing works which have to be carefully maintained and extended. It is in the matter of distribution of water from the sluice that attention is especially required; else the present waste of water will continue. In numerous cases the water from the tank (small) is taken off through open cuts where no regulation takes place. Sluices are otherwise interfered with, as for instance, increasing the vents of the sluice to increase that flow of water and the only effective method of guarding sluices from damage or destruction seems to be to make the raiyats interested responsible for the safety of the sluices. I would look for advantage, not in the construction of more, but to the improvement of the present works.

(3) *Wells.*—There are very few wells in the taluk and these exist in gardens below big tanks.

18. *Crops and cultivation.*—The subjoined statement exhibits the percentage of crops grown in the taluk for the year 1911-12:—

Jola	...	·52	
Wheat ...	...	·02	
Ragi	...	36·72	
Gram	...	2·92	
Rice	...	34·45	
Other cereals ...	...	·54	
Pulse	...	2·17	
Oil seeds ...	...	5·10	
Sugar-cane ...	...	1·75	
Coffee	...	11·38	
Garden produce ...	...	1·93	
Food	...	2·49	
Non-food ...	...	·01	
	Total	100·00	

(1) *Dry crops*—The following are the dry crops grown in the taluk. Ragi, avare, horse gram bengal gram, oil-seeds, coriander, wheat and tobacco.

Agriculture, as an industry, depends upon conditions of climate and soil, prices and the varied status of the raiyats. Broadly speaking, it may be said that on dry lands the cereals are to have sufficient rain, say, 1 to 2 inches at least twice a month and pulses, at least once a month, during the the period of growth; and the dew in the cold months is sufficient for Bengal gram. Sweet potato is extensively grown in the dry fields of Belur and Halebid hobbs. This edible article is extensively purchased by the cooly population in all the weekly *santhes*.

(2) *Wet crops.*—Paddy grows most luxuriantly. One crop annually is all that is at present raised, but from the abundant rains which prevail in some parts of the taluk especially in the western and south-eastern portion, two crops might, with industry, very well be raised.

Rice is universally grown. In the malnad portion of the taluk rice is grown in the long winding valleys and in fields cut into terraces. As the rains in this tract are regular and copious, there is generally no necessity for artificial irrigation from tanks. Water in tanks comes into play when the rains hold off or during hot weather. Rice cultivated in the maidan portions of the taluk is superior in quality and depends upon irrigation from tanks.

Sugar-cane is grown under big tanks such as Andelo, Adgur and Halebid. Under smaller tanks we find sugar-cane in small patches here and there.

(3) *Garden crop.*—Garden crops are chiefly areca, cocoanut and plantain. The supari gardens below tanks and those in the east and south-east are fairly good. In the north-eastern portion of the taluk we come across many patches of "*wet hukkum*" gardens and their condition is very fair. The gardens in the malnad portion of the taluk are generally very fair.

Coffee cultivation is confined to the west of the taluk. It has become a very important and increasing source of wealth and this state of things will be maintained as long as the rainfall is timely and abundant. The recent high prices for coffee has given great impetus to the expansion of its cultivation. The extent to which the production of this article has increased during the last thirty or forty years is remarkable. The extent of land brought under cultivation by European and Indian capitalists will probably approach 17,412 acres as per statement received from the taluk. The possibility of procuring labour, the means of transport, the quality of the crop and its favour in the foreign markets are all points to be ascertained by experience and in addition to this the climate itself, the nature of the soil, the geniality of the temperature, the treatment of the plant and its probable duration were once matters of uncertainty and speculation; but experience has shown that the combination of a fit soil, a lofty elevation, warm sun and regular rains are the main desiderata. In the coffee plantations cardamom is generally grown. It grows at an elevation of about 2,500 to 5,000 feet above the sea level. Its cultivation is simple; wherever there is a permanent water-supply there cardamom finds its place. The coffee planters have begun to turn their attention to its cultivation on a larger scale. In some coffee plantations fruit trees such as oranges, are grown and they are sold by cart loads in the weekly local markets and in the important markets of Javagal and Chikmagalur outside the taluk.

No. R. 6981-6993—L. S. 45-14-15, DATED 20TH JANUARY 1916.

19. *Agricultural resources.*—Agriculture as an industry has not developed itself on scientific basis. The cultivators in the taluk, in fact, know a great deal more than they are given credit for. They know the value of certain manures. The processes they adopt are the results of most careful empirical experiments carried on for several years. The development of this industry on scientific principles is the work of the future, as a separate department has been inaugurated to take cognizance of all matters affecting the practical improvement and development of the agricultural resources of the province. A statement is given hereunder showing statistical information collected during resurvey operations.

Items		At original settlement	As per re-survey	Increase or decrease	Remarks
Houses	Thatched ...	8,724	8,779	+ 55	
	Mud-roofed ...	92	50	− 42	
	Tiled ...	3,025	5,371	+2,346	
Carts	Halli ...	128	38	+ 515	
	Chakada ...	320 (448)	912 (963)		
	Waddar ...	..	13		
Ploughs	... ...	9,490	11,830	+2,340	
Wells	Irrigation .	. ...	38	+ 408	
	Others ...	...	370 (408)		
Horned cattle	... ...	63,725	72,545	+8,820	

With regard to tiled houses the increase is striking Judging from the increase under the heads horned cattle, carts, ploughs which have increased by 14,115 and 25 per cent, respectively, we may afely say that the agricultural prosperity has been on the increase.

20. *Population*—The density of population depends on several factors, most important of which are the rainfall, the climate, the soil, the configuration of the land and the state of civilization. In a taluk like Belur, where we have malnad and maidan portions, it may be said that high or low density is concomitant with heavy or deficient rainfall.

The following table exhibits the population of the taluk for the last five census years as also the density per square mile:—

Year		Population	Density per square mile
1871	...	58 261	200
1881	...	49,831	177
1891	...	56,759	201
1901	...	63,056	224
1911	...	59,220	210

When compared with the figure for 1911, the preceding decade shows a great falling off due probably to death and the advent of plague in many villages of the taluk and also to the fluctuation of cooly population in the coffee estates. But there has been a steady and decided increase in the population since the year 1881 to the year 1901.

It may also be noticed that in the irrigated tracts, where the crops are secure with adequate drainage, the death rate is not high. Conversely, where in water-logged areas the soil deteriorates and the people are prostrated by chronic malarial diseases, there is of course depopulation. I have incidentally to remark that the percentage of population receiving education does not exceed 5 on the whole. This is not satisfactory. It is very likely that the percentage of literacy will increase ere long, as may be judged from the arrangements that are now being made for the spread of education all over the province.

21. *Sanitation.*—Much of the disease in the taluk is due to bad water and bad drainge. And as regards villages, improvements must mainly be the work of the people themselves. Sanitary works have been undertaken under the guidance of a special officer in the malnad portion of the province with good results. Fever, especially in the malnad tracts of the taluk, is by far, the prolific cause of death. The epidemic of plague generally visits villages by the side of roads that serve as railway feeders of the taluk. Ever since 1900 to 1912 the taluk has not been free from epidemic diseases, either plague or cholera claiming its victims.

22. *Fairs and festivals.*—Fairs and festivals are generally enjoyed by the agricultural classes, as their weary monotonous round of labour is brightened by several festivals and by annual pilgrimages to the temple. There are not many fairs and festivals in the taluk. The fair that is held at Belur during the Rathothasva of Sri Chennakesavaswami is very important. During the festival about 4 to 6 thousand people congregate. Fairs and festivals serve useful ends: the custom of assembling at shrines, and the opportunity of taking to display merchandise, is of great economic importance and is of immense advantage to the commerce of the province.

No. R. 6981-6993—L. S. 45-14-5, DATED 20TH JANUARY 1916.

23 *Labour and wages* —In the villages the wages for men range from 4 to 5 annas and for women 3 to 4 annas, and in coffee estates men get from 4 to 6 annas and women from 4 to 5 annas a day. Labourers from some parts of the province and from South Canara and Malabar annually visit the coffee estates where they are supplied with suitable lodgings and as soon as the coffee crop is picked, they return to their homes to look after their own crops if they have any, and after spending their money, return to the plantation for the weeding during the monsoon.

24 *Prices.*— Prices of food grains have risen high since the original settlement. This rise is not confined to this taluk alone, but is universal.

The following table is compiled from the statistics supplied by the taluk authorities and it shows the average prices of the principal food grains during the quinquenniums from the year 1882-83 ,—

Years	Rice, seers per rupee		Ragi seers per rupee	Horse gram seers per rupee	Bengal gram seers per rupee	Supari, price in rupees per maund		Dry cocoanut price in rupees per maund
	1st sort	2nd sort				1st sort	2nd sort	
1883-1887	9	11	33	16	8	8	6	6
1888-1892	9	12	30	17	11	8	5	7
1893-1897	9	12	32	17	10	8	4	7
1898-1902	8	10	23	14	9	9	5	9
1903-1907	10	11	24	19	9	9	5	10
1908-1912	6	8	17	12	8	10	6	9

From the above statement it may be observed that the prices of all the principal agricultural products have risen steadily, except for a temporary fluctuation in the last but one period.

Comparing the average prices that ruled during the periods 1883-1887 and 1908-1912, it will be clearly seen that rice has risen by 33 per cent and ragi by 48 per cent Seeing the present state of things, I think, for a very long time to come, there is no probability of any serious fall in the ruling prices of the food grains.

Seasonal conditions of the taluk have not much effected this rise in prices and it is chiefly due to the large demand in foreign markets

25. *Value of land.*—I have had examined 334 cases of sales and 183 cases of mortgages extending over thirty years from 1876-77 to 1906-07, in which the aggregate amount of sales comes to Rs. 85,539 and loans to Rs 41,908. The lands when sold realised on an average 20 times the assessment and loans raised on mortgages, 14 times the assessment This clearly shows that the value of the land has increased ; and it is not difficult to find out the chief causes of such an increase among which are the minutely recorded and easily understood land titles, long lease and the guarantee of enjoyment of all profits during the currency of such lease. It is no wonder that under such circumstances land has thus obtained an increased marketable value.

26 *Past and present survey* —There are now 28,692 new or resurvey numbers against 25,518 original survey numbers, thereby showing an increase of 3,174 or 12 per cent, generally due to the making of recognized shares into new numbers, making of new numbers out of gomal or unassessed kharab land for cultivation and to the sub-division of occupied survey numbers under the present rules.

The extent of each description of land, according to past and present survey, is shown in the statement given below :—

Description of land	Former survey	Present survey	Increase or decrease
	Acres	Acres	Acres
Arable dry	62,866	62,274	—592
Rice or wet land	28,938	28,710	—228
Garden land	1,435	1,684	+249
Unarable land	87,640	88,131	+491
Total ...	180,879	180,799	— 80

The decrease in the gross area of the taluk is only 80 acres and is of no consequence being only 04 per cent. The decrease under arable dry and wet lands, to a slight extent, is compensated for by the increase in the garden extent. Invariably, portions of dry or wet numbers are converted into garden.

The increase in the unarable extent of the land is 56 per cent and is due to portions of occupied numbers being transferred to the head unarable when taken up for new roads or other public purposes.

Every survey number was carefully scrutinized both in the field and at headquarters. There was also a careful examination of the boundary marks of survey numbers. The missing marks were fixed according to original measurement. And though much time is taken up by the measurers in this direction it has ensured thoroughness and the working of the re-survey rules in all its aspects.

27. *Re-classification*.—The original classification of the soil has been left undisturbed except in the cases of conversion of dry into wet or of kharab lands classed for the first time in the interests of cultivation.

Water classification of all rice and garden lands has been revised as per rules of 1896.

28. *Revenue history*.—From the year of the introduction of the original settlement to the year 1880-81, the accounts regarding revenue collections are not available in the taluk office. The taluk authorities have been able to furnish accounts for a period of thirty years from 1881-82 to 1911-12.

The following is an excerpt from Appendix A for quinquennial periods from 1881-82 to 1911-12.

Years	Government occupied land								Remission	Amount realized
	Dry		Wet		Garden		Total			
	Acres	Assessment	Acres	Assessment	Acres	Assessment	Acres	Assessment		
1	2	3	4	5	6	7	8	9	10	11

In the absence of statistics for the four years immediately following the original settlement, I have to confine myself to the year 1881-82 as the basis for purposes of comparison. It will be seen from the above figures that the dry area under occupation has steadily and markedly risen by 41 per cent and the wet area by 26 per cent. The garden area has risen by 4 per cent though the fluctuations have been very slight. The increase in area under these three heads may be accounted for by a corresponding falling off under the total unoccupied area which shows a decrease of 18,514 acres or 51 per cent.

The revenue collections under dry and wet have shown a steady increase, until they have reached a certain level which has been maintained during the last three periods with very slight variations. The garden revenue has also followed suit until it showed a slight decrease during the last period which may, in some degree, be attributed to the special remissions granted in the year 1911-12 as may be seen from the figures furnished by the taluk.

The total revenue collections have also shown a remarkable and steady increase since the year 1881-82, the highest collection, *viz.*, Rs. 1,31,716 exclusive of remissions being for the year 1910-11.

The above facts show that the progress of the taluk has been a steady one both in point of cultivation and revenue.

29. *Grouping of wet lands*.—I have given this subject my best consideration and I am of opinion that the circumstances that suggested the old grouping of dry and wet lands remain more or less the same. Revised assessment of land revenue is fixed not with reference to improvements made

No. R. 6981-6993—L. S. 45-14-5, DATED 20TH JANUARY 1916.

by the owners but with reference to the general considerations of the value of the lands as to soil, situations, prices of produce and facilities of communication The present improved state of some of the villages warrants such an increase and is not in any way unjustifiable or out of the way as it is consistent with the principles adopted during revision settlements

I, therefore, propose to divide the 329 villages under report into the following groups with reference to the assessment of wet lands

At the original settlement there were only four groups. Now I propose to have five by splitting the original III group into two groups The original III, (present III and IV) group consisted of two blocks, one to the east and another to the west of the taluk, intervened by the I and II groups, the present III group being more advantageously situated with regard to climate and communications has been separated from the present IV group and they are shown below with their maximum rates —

Group	Number of villages	Maximum rates
		Rs a p.
I	110 . . .	9 0 0
II	87 . . .	8 8 0
III	35 including 2 kavals ...	8 0 0
IV	57	7 12 0
V	40 including 6 kavals	7 4 0

Group I.—One hundred and ten villages forming the centre of the taluk. It is semi-malnad and enjoys the advantage of abundant rainfall and the existence of roads leading to important markets The maximum wet rate will be Rs 9 against Rs 8 8 0 of the original settlement This rate is slightly higher than the maximum rate of the bordering villages of the Chikmagalur Taluk and it is equal to the maximum rates of the adjoining villages of the Hassan Taluk

Group II—Eighty-seven villages touching the first group both to the right and to the left commanding advantages slightly less than the first group with regard to climate and communications. The wet maximum will be Rs 8-8-0 against Rs 8 the maximum at the original settlement The villages of the Chikmagalur Taluk bordering on this group bear the same increased maximum rate, but the maximum rate for the villages of the Hassan Taluk bordering on this group is slightly less than the present proposed maximum rate.

Group III—Thirty-five villages The third group at the original settlement consisted of 90 villages of which some villages are round about Halebid and the other villages in the western boundary of the taluk (forming the malnad portion). But now the villages round about Halebid have been constituted into group III as has already been pointed out and the western portion of the taluk into group IV.

The villages of the present third group are on both sides of the Banavar road. The wet maximum rate will be Rs 8 against Rs. 7-8-0 the maximum at the original settlement The wet maximum rate of the villages of the Chikmagalur Taluk bordering on this group is slightly higher and that of the villages of the Hassan Taluk is the same

Group IV—Consists of 57 villages forming the western boundary of the taluk, where population is sparse and rainfall copious. At present there are two new roads passing through some of the villages of this group. The wet maximum will be Rs 7-12-0 against Rs 7 8-0 the maximum at the original settlement.

Group V.—Forty villages. The present V group is what was the fourth group at the original settlement This tract of country is studded with hills and climatic conditions are not favorable. Owing to the hilly nature of the tract traffic is not easy The maximum wet rate is now Rs 7-4-0, which is slightly higher than what it was at the original settlement, *viz*, Rs 7

Grouping of dry crop lands—We have a large extent of dry crop lands in the middle portion of the taluk and it is as important as wet or garden The dry crop land in extent is almost double that of the wet. In the western and the malnad portion of the taluk the wet crops thrive better and the dry crop land is generally reserved for pasture The old grouping of dry lands is maintained. The following will be maximum rates for the several groups.

Group	No. of villages	Maximum rate
		Rs. a. p.
I	54	2 10 0
II	66	2 4 0
III	26	1 14 0
IV	59	1 4 0
V	37	1 0 0
VI	87	0 12 0

The villages of the first group are mostly in the third wet group and the northern half of the second wet group. The maximum rate is Rs. 2-10-0 against Rs 2-4-0 the maximum at the original settlement. The increase is not much in consideration of the facilities of communication, markets, etc., enjoyed by this tract. The villages of the second group mostly lie in the tract of the fifth wet

group and in the southern portions of the third and the second wet groups. The maximum rate will be Rs. 2-4-0 against Rs. 2 the maximum at the original settlement and the increase is very small.

The villages of the third group are in the strip of the tract of the first wet group, running from the north-west to the south-east on the right bank of the river Yagachi. The maximum rate is Rs. 1-14-0 against Rs. 1-10-0 the maximum rate at the original settlement and the increase is not so heavy as to encumber the raiyat.

The other three groups are in the malnad portions of the taluk and the maximum in each group remains the same.

Group	Maximum rate Rs. a. p.
IV	1 4 0
V	1 0 0
VI	0 12 0

31. *Garden maximum.*—The old maximum of 16 rupees is now reduced to Rs. 12 and gardens that do not depend on Government Irrigation works are assessed under the rules prescribed for them in Government Proceedings No. R. 3138-46—R. F. 8-1900, dated 24th January 1902.

The statement shown below gives the rates for the different kinds of gardens and it includes minor inam and waste gardens.

Description	As per original settlement			As per revision settlement			Increase or decrease per cent
	Acres	Assessment	Average rate	Acres	Assessment	Average rate	
1	2	3	4	5	6	7	8
		Details not available	Rs			Rs a. p.	
I Tank gardens				757	5,027	6 10 3	
II Gardens receiving indirect benefit from tanks, streams, etc.				379	1,805	4 12 2	
III Gardens under self dependent wells				58	167	2 14 1	
IV Gardens as in III but water-supply failed				56	57	1 0 3	
V Old dry				259	640	2 7 6	
VI New gardens under wells sunk since the original settlement and new cocoanut dry gardens				171	292	1 11 4	
Total	1,400	7,072	5 0 10	1,680	7,968	4 12 1	—6

As separate figures and averages for tank and well gardens for the original settlement are not to be had no comparison can be instituted as between details.

Under my proposals, the average for all kinds of gardens comes to Rs 4-12-1 against Rs. 5-0-10 of the original settlement. Gardens under tanks have been assessed on the average at Rs. 6-10-3 per acre and gardens receiving indirect benefit from tanks, streams, etc, at Rs. 4-12-2 per acre. It is scarcely necessary for me to add that special care has been taken in the treatment of gardens under self-dependent wells and of new gardens as will be seen from the very moderate averages themselves at which these lands are assessed. It is worthy of notice that though the extent under garden area and the total assessment they bear under these proposals have both increased, the average rate per acre shows a decree of Re. 0-4-9 per acre or 6 per cent. With such rates, we may not be far wide of the mark in expecting extended garden cultivation in future.

No. R. 6981-6993—L. S. 45-14-5, DATED 20TH JANUARY 1916.

32. The effect of the proposed rates will be seen by a reference to the following statement for occupied lands.

Group	Description of land	As per collection of the year 1911-12			As per Revision Survey			Increase or decrease in the average rate	Percentage	
		Acres	Assessment	Average rate	Acres	Assessment	average rate		Increase	Decrease
1	2	3	4	5	6	7	8	9	10	11

			1,31,671							

The average rate for the whole taluk has been raised from Rs. 1-12-7 to Rs. 1-14-6 with an increase of Re. 0-1-11 or 7 per cent per acre. In all the groups except the fourth the dry average shows

an increase and the wet average has also risen. In all the groups except group IV, there is a decrease in the average of garden rate. With regard to group IV, I may point out that the tract is so peculiarly situated as to possess a special characteristic of its own which distinguishes it from the other groups Being situated in the extreme west of the taluk, it forms a chain of those malnad regions which run adjacent to the Manjarabad Taluk. The remissions granted in 1896 with regard to malnad gardens did not extend to this taluk. This is an evidence to indicate that there had not been any deterioration in respect of these gardens. There has been an expansion of garden cultivation since the original settlement and one feature of it is that in this group, in many cases, old gardens have been extended owing to the better husbanding of water-supply of the locality. In the gardens sprung up since the original settlement we invariably find the valuable crops of cardamom and areca and their condition is now much better when compared to old gardens. The garden rate at present imposed is virtually the wet rate of the locality Though there has been a slight increase in the average rate of this group, there has been a decrease in the average of the garden rate for the whole taluk. I have seen almost all the gardens in group IV and I am satisfied that the rate now imposed cannot, with justification, be lowered.

33 The following is a statement for the arable lands still unoccupied and of the assessment they bear under the present proposals :—

Group	Dry			Wet			Garden			Total		
	Area	Assessment	Average	Area	Assessment	Average	Area	Assessment	Average	Area	Assessment	Average
1	2	3	4	5	6	7	8	9	10	11	12	13
		Rs	Rs a p.		Rs	Rs a p.		Rs	Rs a p		Rs	Rs. a. p.
I	2,511	1,524	0 9 9	165	151	2 11 9				2,676	1,975	0 11 10
II	2,471	1,442	0 9 1	459	1,340	2 11 9	11	107	9 11 8	2,941	3,889	0 15 9
III	1,922	1,078	0 13 1	50	220	4 6 5	15	77	5 2 2	1,987	1,375	0 15 10
IV	3,645	1,095	0 4 10	1,480	3,757	2 8 7	15	56	3 11 9	5,140	4,908	0 15 3
V	1,778	1,481	0 13 1	73	178	2 7 0	3	9	3 0 0	1,851	1,668	0 14 5
Total .	11,727	6,620	0 9 0	2,227	5,946	2 10 9	44	249	5 10 7	13,998	12,815	0 14 8

It may be remarked that the area unoccupied is about one-fifth of the occupied area as will be seen from the statement for occupied lands so that there is sufficient scope for the expansion of future cultivation. When compared with the original settlement there has been a decrease in the unoccupied area by 62 per cent clearly indicating that the tract has not been backward in the matter of agricultural expansion in the past.

34. *Effects of proposed settlement by groups.*—This is shown in the following table.

Group	Number of villages	By former survey		By revision survey						Increase or decrease per cent on occupied area
		Government occupied land		Government occupied land		Government assessed waste		Total		
		Acres	Assessment	Acres	Assessment	Acres	Assessment	Acres	Assessment

Total ...	329	73,768	1,31,792 mis. 61	72,985	1,38,972	13,998	12,815	86,983	1,51,787	+ 5
			1,31,671							

The increase of Rs. 7,301 for the whole taluk or 5 per cent over the collections of 1911-12 has been obtained by slight increases in the dry and the wet rates and the proposed increase is fairly distributed over all the groups corresponding with variations in the cultivation and the assessment proposed.

No. R. 6981-6993—L. S. 45-14-5, DATED 20TH JANUARY 1916.

35. The following comparative table shows the different descriptions of lands, their assessment under the occupied and the unoccupied area according to the estimates of the original and revision settlements and also as they stood with reference to the actual collections of the year 1911-12, the year in which the revision survey operations were completed :—

									Mis. 61										
									1,31,671										

No. R 6981-6993—L. S. 45-14-5, dated 20th January 1916.

The figures for the IV group for both the occupied and unoccupied area as per original settlement have not been shown separately as the figures are included in the III group, which has been split up into two under the present proposals

The present proposals are expected to yield a total assessment of Rs 1,38,972 as against Rs 1,31,671, the actual collection of the year 1911-12 excluding miscellaneous revenue, *viz*, Rs 61 giving a reasonable and moderate increase of Rs 7,301 or 5 per cent

36 The limit of 66 per cent prescribed for villagewai increase has not been exceeded in any case

37. *Cesses* —The Local Fund and the Irrigation Cesses will be a separate levy under separate rules

38 In conclusion, I beg you will please obtain the sanction of Government for the proposed rates

39 A coloured map showing groups, etc , and the usual appendices are herewith submitted

40 The settlement will, of course, take effect from the year following that in which it is announced

I have the honor to be,
Sir,
Your most obedient servant,
C RAJAGOPALACHARLU,
Deputy Superintendent,
Mysore Revenue Survey

APPENDIX A.

ACCOMPANIMENT II.

Letter No. 3825, dated 13th September 1915, from K. Doraswami Iyer, Esq., Revenue Commissioner in Mysore, to the Secretary to the Government of His Highness the Maharaja of Mysore, Revenue Department.

Referring to correspondence ending with letter No. 450, dated the 28th April 1915, from the Superintendent, Mysore Revenue Survey, in the matter of the revision of assessment of 321 Government villages and 8 kavals of the Belur taluk, I have the honor to state as follows:—

(1) The present report deals with the taluk as it was originally settled and in addition with 8 Inam villages. There have been some territorial changes since the original settlement. About 28 villages forming the extreme western portion of the taluk have been transferred from the Belur to the Mudgere Taluk while about 9 villages of the Hassan taluk and 32 villages of the Chikmagalur Taluk in the south-eastern and the northern portions respectively have been added on to the Belur Taluk.

(2) The taluk lies on the borders of the malnad. The western portion which is hilly and covered with jungle is malnad, while the eastern portion is maidan.

(3) Belur had even previous to the original settlement been well provided with roads and further marked improvements have also been made since, by the opening of three new roads, one from Bikkod to Saklespur, another from Belur to Mudgere and the third from Chikkanahalli to Archalli. Further,—fair cart-tracks exist everywhere.

(4) Irrigation is carried on by means of channels, tanks and also by means of wells in gardens below big tanks, though they are few in number.

(5) Rice is the staple crop throughout. Sugar-cane is also grown. Coffee is planted in the western jungles.

(6) There has been a steady increase in the extent under occupation and assessment. The increase in the dry area being so much as 41 per cent, while the wet area has increased by 26 per cent. The garden area has risen only 4 per cent.

(7) *Grouping of lands. Wet lands.*—There were four groups at the original settlement but the Deputy Superintendent proposes to adopt five groups by splitting the original III group into two. The original III group consisted of two blocks. As the eastern block is more advantageously situated than the western the proposal may be adopted. *Dry lands.*—The old grouping of dry lands into six groups is maintained. *Garden.*—No grouping of villages has been adopted as the assessment of each garden is settled individually on its own merits.

(8) *Rates*—Though there can be no question that prices have steadily and appreciably risen since the time of the original settlement it is not possible to state how far the average raiyat has been benefited thereby as the cost of living has simultaneously increased a great deal and new sources of expenditure are springing up. The wet and dry rates in the case of the first three groups have been proposed to be only slightly increased, while the old maximum of Rs. 16 in the case of garden lands is reduced to Rs. 12. The net result of the proposed revision involves only an increase of 5 per cent in the total assessment and considering that the progress of the taluk has been steady both in point of cultivation and revenue, I agree with the Deputy Commissioner in thinking that the proposals of the Deputy Superintendent are reasonable and recommend the adoption of the rates suggested by him.

ACCOMPANIMENT III.

Letter No. 60, dated 16th September 1915, from D. K. Darashah, Esq., B.A., Superintendent of Revenue Survey and Settlements in Mysore, to V. R. Thyagaraja Iyer, Esq., M.A., Secretary to the Government of His Highness the Maharaja of Mysore, Revenue Department.

With reference to correspondence ending with your letter No. R. 10910—L. S., 45-14, dated 27th May 1915, requesting me to submit, with my remarks, if any, the opinions of the Revenue Commissioner and the Deputy Commissioner on the proposals for the revision settlement of the Belur Taluk, I have the honor to state that the Revenue Commissioner has in memo No. 3826, dated 13th September 1915, forwarded to me copy of his letter No. 3825 of the same date addressed to you wherein he is in concurrence with the proposals formulated in the settlement report by the Deputy Superintendent. The Deputy Commissioner of the Hassan District is also of the same opinion as may be seen from the copy of his letter No. 1225, dated 20th April 1915, herewith forwarded for reference.

I request that sanction of Government may be obtained early on the proposals in question to enable me to take the necessary steps to announce the rates at the ensuing cold weather.

Enclosure to A III.

Copy of letter No. 1225—Mis., dated 20th—22nd April 1915, from the Deputy Commissioner, Hassan District, to the Survey Superintendent in Mysore.

With reference to your letter No. 384, dated 17th March 1915, inviting my opinion on the report from the Deputy Superintendent, Mysore Revenue Survey, regarding his proposals for the revision

No. R. 6981-6993 –L. S. 45-14-3, dated 20th January 1916.

of assessment of 321 Government villages and 8 kavals of the Belur Taluk, I have the honor to state as follows —

2. The complaint regarding the irregular distribution of water for irrigation may be expected to be removed by the gradual expansion of the tank Panchayat Scheme, and so also the objectionable feature, referred to in para 17, of cutting open tank bunds to take water for irrigation. The introduction of the revised scheme for the working of the Maramat Department may at the same time ensure better management of tank works

3. Considering the increase in the density of population from 177 to 210 per square mile since the census operations of 1881, the marked increase in the prevailing prices of produce, the improved facilities of communications and the increased value of land, the increase of 1 anna and 11 pies per acre in the average rate of assessment may be accepted as reasonable. At the same time, the reduction of the maximum rate of assessment on garden lands from Rs. 16 to Rs 12 and of the average on all kinds of gardens from Rs. 5-0-10 to Rs. 4-12-1, will no doubt give an appreciable impetus to the expansion of that class of cultivation.

4. In conclusion, having regard to all the circumstances set out in detail in the report, I beg to state that I am generally agreeable to the proposals contained therein.

No. R. 6151-62—Ft. 73-15-3, dated 6th January 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

The Report on the Administration of the Forest Department for the year ending 30th June 1915, submitted by the Conservator of Forests in Mysore with his letter No. 3553, dated 1st October 1915.

Order No. R. 6451-62—Ft. 73-15-3, dated 6th January 1916.

Personnel.—Mr. M. G. Rama Rao, B.A., was the Head of the Department during the year as Officiating Conservator of Forests.

2. *Survey of Forest Resources.*—The detailed investigation of the resources of the Ghat Forests of the Shimoga and Kadur Districts conducted by the Special Duty Officers has revealed the possibilities of several successful industrial undertakings, such as preparation of railway sleepers, furniture and cabinet-making, preparation of packing cases and the starting of match and pencil factories. Ample scope is stated to exist for collection of gums and resins, for rattan industry and the distillation of cinnamon and sandalwood oils. Mr. G. Krishnamurti Naidu was deputed during the year to Haridwar to study the method of antiseptic treatment of timber and experiments have since been ordered to be conducted to test the suitability of certain varieties of timber so treated for railway sleepers. Experiments were also arranged to ascertain the extent to which timber was available for match splints and boxes and for the distillation of sandalwood oil. Investigations on the suitability of certain Mysore grasses and bamboos for paper pulp were undertaken during the year with the help of Mr. W. Raitt, F.C.S., Cellulose Expert attached to the Forest Research Institute, Dehra Dun and the Government are glad to note that his preliminary report on the subject is encouraging. Investigations of the fuel resources in the State Forests for preparation of charcoal for iron smelting and other purposes were also carried on during the year.

*Messrs. G. Krishnamurti Naidu and H. S. Narayana Rao.

3. *Reservation of Forests.*—The area of State Forests which was 2,750 square miles in the year previous was extended by 73·44 square miles by the addition of five blocks during the year, while the Bikkode State Forest consisting of 159 acres was disafforested for being given out for coffee cultivation. The appointment of a separate Forest Settlement Officer having been abolished from 1st July 1914, it was directed in Government Order No. R. 8307-316—Ft. 160-14-2, dated 27th March 1915, that the Revenue Sub-Division Officers should hereafter conduct the Forest Settlement work in their respective Sub-Divisions.

4. *Selection of new Areas for Reservation.*—Extensive valuable tracts fit to be reserved as forests in the Districts of Shimoga and Kadur have yet to be selected. Before proceeding further with the reservation work in Shimoga, Government have appointed a Committee to investigate among others, the question of the reservation of new forest areas without curtailing the essential requirements of the raiyats.

5. *Forest Surveys.*—An Assistant Engineer of the Public Works Department continued in charge of Forest Survey work till 1st January 1915, when an officer of the Forest Department was placed in charge. 133·84 square miles of forests were surveyed during the year as against 115 square miles in the year previous.

In order to complete the heavy survey work on hand as early as possible, the appointment of two additional Surveyors have since been sanctioned for one year with effect from 1st October 1915.

6. *Reproduction and Condition of Stock.*—As in the previous year, the seasonal conditions during the year were not favourable for reproduction of forest trees, except in the Shimoga and Kadur Districts. Steps were, however, taken as usual to improve the stock by weeding out rank growth and planting fresh seedlings. It is gratifying to note that a larger area than in the previous year was attempted to be protected from fire during the year and that the percentage of success, *viz.*, 99·2 is the highest on record.

7. Spike disease in sandal was as virulent as in the previous year and showed no signs of abatement. Dr. Coleman, Director of Agriculture, is investigating into the nature and cause of this disease.

8. *Communications and Buildings.*—The expenditure on the opening of communications, the construction of quarters for subordinates and other buildings, and on maintenance was Rs. 50,807 against Rs. 59,503 in the year previous. Extension of tramway works for providing greater facilities for transport of forest produce received due attention. A fresh tramway line from Tarikere to Lakvalli was opened for traffic during the year. The construction of two more tramway lines (1) Mysore to Kakankote and (2) Hebbe to Tadasa is engaging the attention of Government.

9. *Exploitation.*—The agency for exploitation of timber, etc., remained the same as in the previous years. The quantity of timber felled and collected during the year was very much larger than in the previous year, mainly on account of preparation of railway sleepers 14,36,821 c. ft. having been cut during the year against 6,01,385 c. ft. in the previous year.

10. Over 3,08,586 sleepers were supplied to the Railway Department during the year against 30,000 in the year previous and about 91,460 more were in stock at the depots at the close of the year.

11. *Price of Timber and Sandalwood.*—The prices realised at the periodical auction sales on all classes of timber except beete were generally in excess of the retail sale rates. The quantity of timber sold direct by the department was 8,71,616 c. ft. valued at Rs. 12,72,082 against 3,72,005 c. ft. valued at Rs. 4,98,811.

12. As regards sandalwood, however, the demand especially in the European markets was almost nothing owing to the war conditions only 70 tons, 13 cwts. having been actually sold at the auction sales of March 1915, out of 1313 tons, 14 cwts., 5 lbs. exposed for sale. With a view to avoid loss by deterioration of the prepared wood, the stock on hand was advertised for sale at the depot at a fixed price slightly lower than the average rates of the previous two years. About 297 tons of sandalwood were thus sold before the end of the year. The total quantity of sandalwood sold during the year 1914-15 was thus only 367 tons 4 cwts. 14 lbs. against 2,148 tons in the year previous, the prices realised being respectively Rs. 3,34,709 and Rs. 22,57,542.

13. *Financial.*—The total revenue realised during the year was Rs. 22,83,651 against Rs. 33,91,057 for the year previous, resulting in a decrease of Rs. 11,07,406. This decrease is mainly due to the fall of nearly 19 lakhs in the income from sandalwood. Barring this item (*viz.* sandalwood) the total revenue realised during the year from other sources was the highest on record.

14. The expenditure on forest proper (*i. e.*) exclusive of the charges on Game Preserves was Rs. 11,56,335 against Rs. 8,97,021 (*i. e.*) Rs. 2,59,314, more than in the year previous. This increase was mainly due to excess of expenditure under A. Conservancy and works (Rs. 8,24,922 against Rs. 5,57,430 in the previous year) on account of the large supply of sleepers to the Railway Department, while the expenditure under B. Establishment was Rs. 3,41,846 against Rs. 3,39,591 in the previous year.

15. The year's transactions left a surplus of only Rs. 11,71,190 against Rs. 25,09,808 in the previous year.

No. R. 6451-62—Ft. 73-15-3, dated 6th January 1916.

16. *Working Plan.*—No new working plans were prepared during the year as the Working Plan Officer Mr. H. S. Narayana Rao had been drafted for other duties in the exigencies of the service. The working plan reports of the forests of the Gundlupet Range and those of the Lakvalli and Tyagadabagi State Forests were sanctioned during the year.

17. *Forest Offences.*—Nine hundred and seventy-seven cases of forest offences were reported during the year against 973 in the year previous, more than 96 per cent of them being as in the previous year of a petty character, such as unauthorised fellings and illicit grazing. 144 cases of injury to sandal trees were dealt with under Section 73 of the Forest Regulation during the year against 210 in the year previous. The disposal during the year of cases of injury to sandal trees was not, however, satisfactory as only 79 out of the total 379 cases were disposed of. The quarterly statements of pending cases prescribed by Government with a view to check and lessen delays in the disposal of such cases are not being regularly submitted. The attention of the Deputy Commissioners is again drawn to this matter and they are requested to see that special efforts are made during the remaining months of the current year to reduce the arrears and that the statements are submitted promptly.

18. *Conclusion.*—The administration of this department during the year was generally satisfactory and the thanks of Government are due to Mr. M. G. Rama Rao and the staff of the Forest Department for this result. Government, however, note that important developments especially as regards the submission of a working plan for every State Forest and of proper transport facilities are necessary for the exploitation of the forest resources of the State to the fullest extent considered desirable and they trust that these will continue to receive adequate attention from the Conservator and the subordinate officers of the Department.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Correspondence ending with letter No. 3150, dated 18th September 1914, from the Conservator of Forests in Mysore in the matter of the irregularities reported to have been committed in the Bangalore Forest Range during the period when Mr Konar held charge of the Range.

2. Letters No. 192, dated 18th September 1914, and No. 1172, dated 10th October 1914, from the Depu Commissioner, Bangalore District, reporting on the same subject and suggesting the appointment of a Committee to go into the subject of Forest accounts and devise means to improve the present state of affairs.

Order No. R. 7418-29—Ft. 46-14-39, dated 29th January 1916.

The final report submitted with the Conservator's letter No. 7883, dated 5th February 1915, stating that a sum of Rs. 12,783-2-4 has been unaccounted for in the Bangalore Range during the period Ranger Konar was in charge, has been engaging the separate consideration of Government.

2. The defalcating Ranger Konar and his clerk Sankarasami Iyer having been sentenced to substantial terms of imprisonment with fine by the Criminal Court on two counts, Government directed that the other cases against them be withdrawn.

3. The marginally noted officers were requested to constitute themselves into a Committee to investigate the question of the improvement of the system of Forest Accounts in Mysore, and their report with its enclosure is printed as an annexure to this order.

1. Rajamantrapravina Dewan Bahadur J. S. Chakravarti, Esq., Financial Secretary and Comptroller.
2. D. M. Narasinga Rao, Esq, General Secretary to Government.
3. M. G. Rama Rao, Esq., Conservator of Forests.

4. Government agree with them in the opinion that it is unnecessary to appoint either another Committee or a special officer to improve the existing system of accounts as the irregularities committed are not due to any defects in the system of accounts but mostly to faulty administration. They have accordingly made certain suggestions for improving the maintenance of accounts in Forest Offices.

5. Government approve of the recommendations made in Appendix A to the Committee's report. Immediate steps should be taken by the Conservator of Forests and the Comptroller to give effect to these recommendations.

6. The Conservator of Forests is requested to prescribe in consultation with the Comptroller the forms for the register and the receipts referred to in suggestions 2 (1) and (3), respectively, of the Committee and get a sufficient number of books of each printed in the Government Press for the current year, the supply in future years being obtained on the usual indents. The necessary addenda to the Forest Code should be submitted early.

7. The Conservator of Forests is further requested to arrange at once with the aid of the existing establishment, for the detailed audit of all the Ranges in the Bangalore District with a view to assure himself that further frauds have not escaped detection and to submit his report before the end of the current year with his recommendations as regards any special measures necessary to prevent irregularities, if any, discovered in the course of such audit.

No. R. 7418-29—Ft. 46-14-39, dated 29th January 1916.

8. The staff of the District Forest Offices of the 6 major districts has recently been strengthened by the addition of an accountant each and the Comptroller's office relieved of the work of compilation of forest accounts. Both the offices should now be able to devote more attention to the checking of the Range accounts. Government do not therefore consider any further strengthening the offices of the Comptroller to Government and the District Forest offices necessary in order to effect thorough check of accounts in their different stages.

9. Separate orders will issue regarding the officers responsible for allowing such serious irregularities.

Exd.—C. R

Proceedings of an informal meeting held under the orders of the Dewan on 20th November 1914, to investigate the question of improving the system of Forest Accounts in Mysore.

Present.

Dewan Bahadur J. S Chakravarti, Esq
D M Narasinga Rao, Esq, and
M G. Rama Rao, Esq.

The opinion of the Informal Committee on the various questions referred to them is given below.

Question I—Whether it is necessary to appoint a Committee or a Special Officer to suggest the lines on which the present system of forest accounts may be improved.

It is unnecessary to appoint either a Committee or a Special Officer to improve the existing system of accounts, as the irregularities recently detected disclose no defects of system but are entirely due to faulty administration.

Suggestions of the Informal Committee for improving the maintenance of accounts in Forest Offices are appended hereto

Question II.—Measures for discovering further frauds, if any, in the Bangalore District,

The Conservator has kindly agreed to audit the accounts of all the Ranges in the Bangalore District for 1913-14, with the aid of the existing establishment and to get complete reports within about six months from date.

On receipt of these reports special measures needed to discover further frauds, if any, in past years up to a reasonable limit, may be considered by Government.

Question III.—Suitable notice of the conduct of the Officers concerned.

It is necessary to notice the negligent conduct of inspecting and supervising officers which has facilitated commission of the irregularities already disclosed, as well as those which may hereafter be discovered; but what notice would be suitable will be matter for decision by Government

APPENDIX A.

1. The improvements suggested by the Committee fall under three heads:—
   (i) Those which can be attended to by the Conservator of Forests himself.
   (ii) Those which have to be attended to with the co-operation of the Comptroller, and
   (iii) Those which require the sanction of Government.
2. The suggestions of the Committee under Head I are —

(1) A register should be opened by the District Forest Officer in which each lease under Budget Head II, (produce removed by purchasers and consumers) should be entered

immediately after confirmation by the District Forest Officer or higher authority. A similar register should be maintained by each Range Officer and periodically examined by the District Forest Officer who should be held responsible for seeing that the full demand connected with each transaction is promptly collected and duly accounted for and that the transaction is closed as early as possible.

(2) The rule regarding the posting of the contractors and disburser's ledger laid down in Article 160 of the Forest Code should be strictly enforced. All advances made by the disburser if they are not objected to by the District Forest Officer, should be transferred to a separate ledger account, so that there should be perfect agreement between the amount outstanding against the disburser and the actual cash balance in his hand referred to in Article 121 of the Forest Code.

(3) *Receipt forms.*—For every amount received by an authorised Officer a receipt should invariably be given in a prescribed form from a counterfoil book each page of which (both foil and counterfoil) should be machine numbered; and wide publicity should be given to the fact that parties making payments are entitled to receipts in the prescribed form, and that it is to their interest to insist on this right. Infractions of these rules by Forest Officers should be severely punished.

All receipt form books should be printed, stocked and distributed in the same way as cheque books and every office in which such books are kept should maintain a correct *stock register* of them. Inspecting Officers should satisfy themselves that the above procedure is observed and should further trace the amounts of all the counterfoils to the receipt side of the cash book.

(4) *Remittance of revenue direct to the Treasury.*—The rule requiring license vendors to remit all revenue collected by them *direct* to the treasury should be strictly enforced and the Range Officers should be strictly forbidden from handling such revenue.

3. Under Head II.

(5) *Revenue deposits to stand in name of party depositing.*—The existing rules regarding the receipts of revenue deposits should be strictly enforced. Forest Officers should be absolutely prohibited from making revenue deposits in their own name and treasuries instructed not to receive such deposits. A revenue deposit should stand in the name of the party paying the amount, the name of the officer through whom it is paid being also indicated.

(6) *To whom alone refunds should be made.*—Refunds of deposits should be made only on bills signed by the party in whose name the amount stands, countersigned by the District Forest Officer.

(7) *Irregular transfers of deposits forbidden.*—Treasuries should be instructed not to allow of adjustments of revenue deposits by transfer except in the manner laid down in Article 779 of the Mysore Treasury Manual and Article 174 of the Taluk Treasury Manual. A certificate of such transfer should be obtained from the Treasury to support the Disburser's cash book.

(8) *Sanctioned works to be referred to in cash books to facilitate check.*—The checking in the Comptroller's Office of the classified abstracts with the list of sanctioned works should be done more thoroughly and to make this possible and effective, full particulars of sanctioned works should be given in the classified abstract.

(9) *District Forest Officer to check cash sheets and chellans.*—When cash sheets together with the chellans supporting them are received in the District Forest Office, the District Forest Officer should make a careful check of the details entered in the chellan with the corresponding entries in the cash book, and Form F and Form No. 27 received from the treasury.

Local and Outside Audit Department.

No. Fl. 3359-75—G. F. 90-15-2, dated 15th January 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Comptroller's letter No. 2666—L. A. D. 320, dated 30th September 1915, forwarding the annual report of the working of the Local and Outside Audit Department of his office during the year 1914-15.

Order No. Fl. 3359-75—G. F. 90-15-2, dated 15th January 1916.

1. Recorded.

2. During the year, the Local Audit staff examined the accounts for the year 1913-14, of the two City Municipalities of Bangalore and Mysore, the Sanitary Board, Kolar Gold Fields, and all the District and Municipal Boards with the exception of three mofussil Municipalities, in addition to conducting a special audit of the Bangalore Municipality.

3. The Outside Audit staff were able to test audit the accounts of only 14 Headquarter offices and to thoroughly audit the accounts of the Military Stores leaving the audit of six other offices in arrears due to the inadequacy of the staff.

4. The accounts of the Mechanical Engineering School, Bangalore, the Oriental Library, and the Industrial School, Channapatna and the Contingent Accounts of the Deputy Commissioner's office, Shimoga, were also examined.

5. The Comptroller reports that, in spite of several reminders, a number of audit notes up to 30th September 1915, have not yet been returned to him by the Presidents of District and Municipal Boards concerned. Government trust that the officers concerned will send them without further delay.

6. The attention of all officers of Municipal and District Boards is drawn to para 16 of the Comptroller's report enumerating the more important defects and irregularities noticed in the course of audit and they are requested to take proper steps to avoid them in future.

J. S. CHAKRAVARTI,
Financial Secy. to Government.

Administration Report of Stamp Department.

No. Fl. 3494-503—G. F. 72-15-3, dated 22nd January 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Letter No 256, dated the 2nd November 1915, from the Commissioner of Stamps in Mysore, submitting the Report on the Administration of the Stamp Department for the year 1914-15.

Order No. Fl. 3494-503—G. F. 72-15-3, dated 22nd January 1916.

During the year under report the establishment of the offices of the Superintendent of Stamps and that of the Stamp Manufactory were revised to suit the requirements of both the offices consequent on the introduction of stamps of the new design and the transfer of the custody of the special water-marked papers to the Superintendent of Stamps.

2. The stamp revenue during the year was Rs. 10,82,074 as against Rs. 10,66,357 in the year 1913-14. The increase is noticeable under all the heads, except stamp duty and penalties.

3. The expenditure of the Department during the year amounted to Rs. 59,820 as against Rs. 57,405 in the previous year. The small increase is mainly due to increased expenditure under "refunds."

4. There were only two prosecutions for the evasion of stamp law in the year. The attention of Deputy Commissioners is invited to No. Fl. 3473-81—S. R. 223-09-3, dated 23rd December 1912, and it is trusted that they are taking sufficient precaution to see that the payment of stamp duty is not evaded.

5. The inspection work done by the *ex-officio* Inspectors of Stamps of Kadur and Mysore cannot be considered satisfactory. The Government trust that during the current year no office will be left uninspected.

V. R. THYAGARAJA IYER,
Secy. to Govt., Rev. Dept.

No. Fl. 2957—S. R. 87-15-2, dated 4th January 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Letter No. 194, dated the 30th November 1915, from the Excise Commissioner in Mysore, submitting for information a brief review with certain statistical tables, showing the results of the sales of excise privileges for 1915-16.

No. 194, dated 21st—30th November 1915, from Mr. P. Raghavendra Rao, B.A., B.L., Excise Commissioner in Mysore, to Secretary to the Government of His Highness the Maharaja of Mysore, Revenue Department.

In submitting herewith, for the information of Government, two statements, *i.e.*, one showing the results of sales of the Excise privileges in each taluk of the State for the year 1915-16 as compared with those for the year 1914-15 and another showing the averages of the rentals for three years, *viz.*, 1911-12, 1912-13 and 1913-14, as compared with those for 1914-15 and 1915-16, I have the honour to report as follows:—

1. The important changes introduced in the administration of the Excise Revenue which may be considered to have affected the rentals of the current year were:—

(*a*) The raising of the duty on Ganja from Rs. 7-8-0 to Rs. 10 per seer of 80 tolas during the year 1914-15 and again to Rs. 12-8-0 from the commencement of the current official year.

(*b*) The enchancement of duty on arrack of 25 U. P. from Rs. 4-12-0 to Rs. 5-4-0 per gallon.

(*c*) The imposition of liability on licensees to pay interest on all payments of khists after the 10th of every month.

(*d*) The levy of penalty on trees killed by over-tapping once every quarter instead of once a year.

(*e*) The enchancement of the rate of tree-tax on toddy-yielding trees, *viz.*, date and cocoanut, from Rs. 1-8-0 and Rs. 2-0-0 to Rs. 2-0-0 and Rs. 3-0-0 respectively, from 1st July 1915.

2. *Arrack shops.*—740 arrack shops were sold for Rs. 5,10,417-0-0 during the current year as against 750 for Rs. 5,47,913-0-0 during the year 1914-15, resulting in a net loss of Rs. 37,496 or 6·7 per cent. The increase in rental for the year 1913-14 was 7·8 per cent and for the year 1912-13 was 10 per cent over those of the previous years, while the percentage of increase in the year 1914-15 over the rentals for 1913-14 was 26·48. From 1st July 1914, the renters were allowed an increased margin of profit, *viz.*, 0-9-0 per gallon, more than what they were getting before. This served as an incentive to keen competition at the sales, with the result of a record outturn last year under this head. Such sudden fluctuations, usually follow in the wake of any change affecting the system.

3. It is seen from the results of the auction sales that all the districts except Hassan and Kadur have contributed to the current year's fall. There was an increase, in these two districts, of Rs. 2,499 and Rs. 1,860 respectively, over the realisations of the previous year. The increase in Kadur District may be stated to be partly due to keen competition among the intending bidders by way of arranging resales of the shops for which reasonable bids were not forthcoming in the first instance on the advertised dates of the sales.

4. Looking at the rentals of the past four years obtained in the coffee-growing taluks of the State, it is interesting to observe that there is a tendency towards rise under this item (arrack) year after year owing presumably to the prosperous condition of the coffee trade. The subjoined statement gives the comparative figures on this point.

Coffee growing taluks	1911-12	1912-13	1913-14	Average of three years	1914-15	Plus or minus the average	1915-16	Plus or minus over the average of three years
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Hassan	4,392	4,452	4,992	4,612	8,034	+3,422	8,664	+4,052
Manjarabad	3,270	3,528	4,053	3,617	5,286	+1,669	8,080	+4,463

No. Fl. 2957—S. R. 87-15-2, dated 4th January 1916.

While there has been a gradual and continuous increase in the shop-rental, the consumption in these tracts has not presented any marked fluctuation during the several years past as indicated in the following statement:—

Years	Gallons	Incidence of consumption per head of population	Remarks
1905-06	32,184	2 6	
1906-07	36,521	2 8	
1907-08	38,106	3 0	
1908-09	41,408	3·4	Rise.
1909-10	43,296	3·5	
1910-11	41,393	3 3	
1911-12	44,076	5·2	
1912-13	55,483	6·6	Maximum.
1913-14	58,304	5·1	Fall.
1914-15	45,725	4·03	

5. The actual Excise rentals for the years 1914-15 and 1915-16 have been compared with the average of rentals realised during the three previous years in Appendix C, and an examination of these figures in it discloses the fact that the rentals fetched by the sales of arrack privileges for the current year in the following taluks show a fall from the three years' average.

Names of taluks	Average of three years	Rental for 1914-15	Plus or minus over the average	Rental for 1915-16	Plus or minus over the average	Percentage of fall over the average of three years
1	2	3	4	5	6	7
	Rs.	Rs.	Rs	Rs.	Rs.	Rs.
Bowringpet	96,752	83,064	—13,688	76,140	—20,612	21·2
Kolar	6,622	7,344	+ 722	6,378	— 244	3·6
Malur	3,882	4,380	+ 498	3,588	— 294	7·5
Nanjangud	2,052	2,832	+ 780	2,040	— 12	·5
T.-Narsipur	2,112	2,190	+ 78	2,070	— 42	1·9
Yedatore	594	585	— 9	432	— 162	27·2

The fall under arrack rentals amounting to Rs. 20,612 in Bowringpet Taluk may be ascribed to the unpopularity of this liquor among the cooly population employed in the Kolar Gold Fields area, who, it is reported, are mostly recruited from Palghat, Malabar and other places on the West Coast and are specially partial to toddy, especially cocoanut toddy.

6. For the purposes of comparison the amount of arrack rentals obtained is given below district-war in thousands of rupees for fifteen years. It is seen that all the districts other than Kolar record the highest figures in the year 1914-15. The current year's figures show a slight fall, being 6·7 per cent below the last year's, but this is of no consequence whatsoever in view of the fact that the increased rate of duty will surely make up for it.

Years	Bangalore	Kolar	Tumkur	Mysore	Hassan	Kadur	Shimoga	Chitaldrug	Total

No. Fl. 2957—S. R. 87-15-2, dated 4th January 1916.

7. *Special liquors*.—During the year under report 24 shops were sold for an aggregate amount of Rs. 18,921 as against 19 shops sold for Rs. 16,390 in 1914-15, resulting in a net increase of Rs. 2,531 owing perhaps to the increased popularity of this kind of liquor. The following statement exhibits the results of the sales of this liquor districtwar.

Name of District	1914-15	1915-16	Plus or minus over the previous year
	Rs.	Rs.	Rs.
Bangalore	708	1,092	+ 384
Kolar	1,770	4,587	— 183
Mysore	4,260	5,700	+1,440
Hassan	1,536	1,224	— 312
Kadur	2,352	3,300	+ 948
Shimoga	2,454	2,694	+ 240
Chitaldrug	300	324	+ 24
Total ...	16,390	18,921	+2,531

8. *Date toddy shops*.—Two thousand five hundred and eighteen date toddy shops were sold for an aggregate sum of Rs. 19,02,189 as against Rs. 20,19,792 realised from the sales of 2,527 toddy shops during the year 1914-15, resulting in a net loss of Rs. 1,17,603 or a decrease of 5·8 per cent from the previous year's figures. Tumkur, Mysore and Kadur Districts have contributed Rs. 42,564, Rs. 42,942 and Rs 15,012, respectively, towards the loss.

9. The marginally noted taluks were sold on three years' lease ending with 30th June 1918. The results of long lease system in these taluks will be watched and if it is found advantageous, steps will be taken to recommend the extension of the system to other taluks.

Bangalore, Nelamangala, Doddballapur, Devanhalli, Hoskote, Anekal, Kolar, Sidlaghatta, Chikballapur, Tumkur, T.-Narsipur, Malvalli, Hassan, Mudgere, Honnali, Channagiri, Shimoga and Molakalmuru.

The loss of Rs. 1,17,603 sustained under this head is only apparent seeing that the enhanced rate of tree-tax will make up for it.

10. *Bagani toddy shops*.—Rupees 55,416 were realised by the sale of 613 shops as against Rs. 54,351, by the sale of 635 shops last year, resulting in a net increase of Rs. 1,065.

11. The subjoined statement in thousands of rupees shows the amount of rentals, districtwar, obtained under date toddy for the last fifteen years from which it will be seen that the rentals obtained for the current year are decidedly higher than that of any of the previous years except last year.

Years	Bangalore	Kolar	Tumkur	Mysore	Hassan	Kadur	Shimoga	Chitaldrug	Total
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.

1915-16	303	257	295	400	219	145	95	245	19·57

12. *Opium shops*.—One hundred and ten shops were sold for Rs. 27,066-12-0 as against 112 for Rs. 25,813-8-0 last year, resulting in a rise of Rs. 1,253-4-0 or 17·17 per cent over the previous year. Since the year 1911, the opium rentals are going up by rapid strides as is proved by the following statement, the current year's rental being 51·1 per cent over the average of three previous years' rentals.

District	Average rentals of 3 years, viz., 1911-12 to 1913-14	1914-15	Plus or minus over the average	1915-16	Plus or minus over the average

No. Fl. 2957- S. R. 87-15-2, dated 4th January 1916.

The consumption during 1914-15 was 1,160 seers, 60 tolas as against 1,137 seers, 40 tolas in the previous year and 1,119 seers, 53 tolas in the year 1911-12. The fixed rate of Re 0-9-0 per tola for retailing opium was ordered to be abolished from 1st July 1911 and the vendors have since been allowed to fix their own selling price

13. The comparative results under each item of Excise Revenue of the State are embodied in the Appendix A.

Order No. Fl. 2957—S. R. 87-15-2, dated 4th January 1916.

Recorded.

V. R. THYAGARAJA IYER,
Secy. to Govt., Rev. Dept.

To - The Excise Commissioner in Mysore.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Letter No. C. 102, dated the 25th October 1915, from the Excise Commissioner in Mysore, submitting a report on the Administration of the Excise Department for 1914-15.

Order No. Fl. 3484-93—S. R. 70-15-5, dated 22nd January 1916.

The more important events in the administration of the department during the year were as follows:—

(1) The still head duty on arrack of 25 U. P. was raised from Rs. 4-12-0 to Rs. 5-4-0 a gallon with effect from 1st July 1914.

(2) The duty on ganja was raised from Rs. 7-8-0 to Rs. 10 a seer with effect from the same date.

(3) Two District Excise Officers and two Excise Range Inspectors were deputed for training in the Distillery School at Madras, and

(4) The special Detective Staff was continued till the end of the year under report.

2. *Financial result.*—The total receipts and expenditure of the department during the year were Rs. 58,43,496 and Rs. 3,48,735 as against Rs. 55,26,079 and Rs. 3,39,246 respectively, in the previous year. Deducting assignments towards local cess, refunds to Inamdars of the toddy revenue of their villages and certain other miscellaneous items, the net collection was Rs. 55,06,297 as against Rs. 52,04,308 in 1913-14. The demand for the year, excluding arrears of previous years, was Rs. 58,13,240 against Rs. 55,22,160 for the previous year. Of this, a sum of Rs. 57,95,156 was collected, the percentage of collection being 99·7 against 99·8 in 1913-14.

3. *Incidence.*—The general incidence of taxation in the year under report rose from Re. 0-15-6 to Re. 1-0-4 per head of population.

4. *Reduced consumption.*—It is observed that the increase of revenue is not due to increased consumption but is on the other hand accompanied by a decided fall in consumption particularly under arrack, the figures for 1913-14 and 1914-15 being 466,107 and 377,164 gallons, respectively. Government have steadily pursued measures calculated to check consumption as far as possible and further restrictive measures are under consideration.

5. *Number of shops.*—In furtherance of the declared policy of Government in the matter, the number of shops for the sale of intoxicating liquor and drugs was reduced by 56. The number at the end of the year was 4,385 and the number of shops closed during the preceding ten years was 806.

6. *Inamdars' claims to toddy revenue.*—During the year 13 cases relating to claims of inamdars to Excise revenue from toddy in their villages were decided and a sum of Rs. 37,312-14-1 refunded to the persons whose claims had been recognised.

7. *Ganja cultivation.*—The cultivation of ganja in the tracts selected in the Goribidnur Taluk yielded better results than during the preceding year; and there are grounds to believe that the production of a sufficient quantity of ganja of the best quality within the State may be counted upon in future.

8. *Excise offences.*—During the year under review 2,990 cases involving 3,882 persons were reported against 2,645 cases involving 3,226 persons in the previous year. Of these, 613 cases related to heinous offences. Out of 463 cases referred to Magistrates, 404 were disposed of by them, the percentage of convictions being 81·5 against 84·5 in the previous year.

9. *Provincial Detective Staff.*—The results anticipated from the establishment of Provincial Detective Staff have not been fully realised and the question of placing it on a revised footing so as to increase its usefulness is engaging the attention of Government.

10. *General.*—Government are glad to note that the department has been maintaining the usual level of efficiency. They also note with pleasure the testimony borne in para 98 of the report to the cordial co-operation of the Deputy Commissioners of Districts.

Letter Camp No. 4, dated 22nd October 1915, from the Inspector-General of Registration in Mysore, submitting the Report on the working of the Registration Department for the year 1914-15.

Order No. J. 2832-40—Regis. 4-15-3, dated 21st January 1916.

Recorded.

2. The total number of documents registered during the year was 105,723, showing a decrease of 3,277 in the number registered in the preceding year. This involved a small decrease of Rs. 5,709-14-9 or 2·82 per cent in the receipts of the Department.

3. There were only three prosecutions under Section 82 of the Registration Regulation for false personation and two of them ended in conviction and one in discharge.

4. Government regret to observe that the District Registrars have not paid sufficient attention to inspection work and that the District Registrar of Tumkur did not inspect even a single Sub-Registry Office in his district. Government trust that better results will be shown and that no Sub-Registry Office will be left uninspected during the current year.

Employment in Civil Departments to Military Members of the Imperial Service Troops.

No. G. 9655-9704—Mily. 165-15-1, dated 8th January 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Order No. G. 9655-9704—Mily. 165-15-1, dated 8th January 1916.

Government consider that, with a view to relieve the members of the Imperial Service Troops invalided home from the field, from the hardship entailed on them by their discharge, they should, as far as possible, be provided with suitable employment in other departments where the military standard of physical fitness is not essential. Government are inclined to think that with the discipline and training these men have received they will be found more eligible for orderly duties, etc., than the class of men generally available for such work.

2. The Secretaries to Government, the Heads of Departments and Deputy Commissioners of Districts are accordingly requested to give preference to such men in filling up vacancies in the establishments under their control. The Chief Commandant, Mysore State Troops, and the Military Secretary to His Highness the Maharaja will, from time to time, furnish them with lists of such men giving particulars under the heads indicated in the subjoined form.

Read—

Government Order No Mily. 3160-1—221, dated the 3rd April 1908, sanctioning the revision of the scale of establishment attached to the Mysore Imperial Service Pony Transport Corps

2 Government Order No G 6651-2—Mils 74-14-1, dated 23rd December 1914, sanctioning among others the revision of the clerical establishment of the Imperial Service Transport Corps

3 Correspondence ending with Memo No 1721, dated the 5th October 1915, from the Military Secretary to His Highness the Maharaja forwarding proposition statements for the reorganization of the establishment consequent on the conversion of the pony corps into a bullock train sanctioned by the Government of India

Order No. G. 9807-8—Mily. 163-14-7, dated 11th January 1916.

In view of the conversion of the pony corps into a bullock train, Government agree with the Military Secretary to His Highness that it is necessary to revise the scale of pay and establishment of the corps and are accordingly pleased to sanction with certain modifications the proposals of the Military Secretary to His Highness as shown under the revised scale in the appendix to this order, at a monthly cost of Rs. 6,377 against the existing cost of Rs. 7,143.

2. As an additional inducement for service in the corps, sanction is also accorded to the proposal of the Military Secretary to His Highness for an annual provision of Rs. 4,500 on account of good conduct pay to non commissioned officers and men of the corps. The Military Secretary is requested to suggest suitable rules for the grant of the same.

3. As the new rules for recruitment of officers for the Army now under the consideration of Government may soon come into force and as most of the officers now in the corps have undergone training in the workshop, Government do not deem it necessary to insist upon the conditions of eligibility prescribed in paragraph 6 of Government Order No. 3160-1—221, dated the 3rd April 1908, being fulfilled in giving the benefit of the present reorganization to the officers of the corps. Such of the officers as have had no workshop-training will, however, be required to undergo training for a period of six months.

6. The strength of the corps shall be fixed at 320 carts (including 10 ambulance carts), 704 bullocks and 40 ponies.

Special Rate of Wound, Injury and Family Pensions.

No. G. 9903-6—Mily. 21-14-588, dated 13th January 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE

GENERAL AND REVENUE DEPARTMENTS.

Read—

Government Order No G 7923 5—Mily. 21-14-577, dated the 18th December 1915, sanctioning certain rules for the grant of special rates of wound, injury and family pensions to combatants and followers and families of the Mysore Imperial Service Lancers and Transport Corps.

2. Letter No. 6248, dated the 28th December 1915, from the Chief Commandant, Mysore Service Troops, on the above subject

Order No. G. 9903-6—Mily. 21-14-588, dated 13th January 1916.

The order read above is communicated to the Senior Surgeon with the Government of Mysore for information and guidance.

2. With a view to indicate the proper interpretation of definitions used in the rules appended to the above order, the following subsidiary instructions are also issued for the guidance of the Medical Boards:—

First Degree—Loss of two limbs or two eyes, or incapacitated from earning a living and requiring the care of another person.

This degree is divided into two distinct parts:—

(*a*) Loss of two limbs or two eyes.—

(1) This portion of the degree does not depend on the man's requiring the care of another person. The claim depends on the great severity of the injury, *viz.*, "two limbs or two eyes."

(2) The loss of a limb means only loss by amputation or destruction, but total loss of the use of the limb by paralysis or for any similar reason, *i.e.* the limb has become a mere encumbrance.

(3) Though strictly speaking a limb is the whole of an arm or leg, their functions depend upon the presence of the hands and feet. Thus the loss of a hand or foot by amputation or destruction or the total loss of the use of a hand or foot by paralysis or for any similar reason, rendering it a mere encumbrance, should be considered as the loss of a limb.

(4) The loss of the whole or portions of fingers could not be considered as the loss of a limb, although the loss of all four fingers and a thumb would be. If the thumb remained only and there was good power of opposition, or if the thumb were lost and not the fingers, the function of the limb would be maintained, though it is true not completely still sufficiently to say that a limb had not been lost. The loss of toes could not be so considered as loss of a limb, as function would not be so affected as to affect materially the use of the whole limb, so much as to constitute actual loss.

(5) The total loss of sight in an eye, or the loss of its sight to such an extreme degree that it can form no useful purpose, must be considered as the same as the loss of an eye.

(6) The loss of one eye together with one limb as already defined would qualify a man for this degree of pension.

(*b*) Incapacitated from earning a living and requiring the care of another person.

No. G. 9903-6--Mily. 21-14-588, dated 13th January 1916.

(1) The necessity for the care of another person is the essential factor for qualification.

It is difficult to conceive the case of a man who requires the care of another person who would not at the same time be incapacitated from earning a living, when considered with reference to general remarks No. 1.

(2) Undoubted cases of insanity likely to be permanent would come under this degree.

Second Degree—"Loss of one limb or eye, or incapacitated from earning a living but not requiring the care of another person."

This degree is divided into two distinct parts: –

(*a*) Loss of one limb or eye.—

(1) Remarks under 1st Degree (*a*)-(2) to (5) apply equally.

(*b*) Incapacitated from earning a living but not requiring the care of another person.

(1) This would include extreme cases of deafness, and bad cases of contraction or deformity, in which there was considerable loss of muscle or nerve power in more than one limb.

(2) Cases of mental affliction not amounting to insanity would ordinarily come under this degree.

Third Degree—"Wound or injury equal to the loss of a limb or preventing the recipient from contributing except partially, towards his livelihood."

This degree is divided into two distinct parts:—

(*a*) "Wound or injury equal to the loss of a limb."–

(1) A wound or injury equal to the loss of a limb must be held to be one that would have the effect of the actual material loss of a limb.

Contractions brought about by the injury itself or its sequelæ, if they are disabled to such a degree as to prevent the use of a limb as a limb, would come under this category.

(2) The loss of a part of a finger or the whole of a finger would not entitle to a pension, but the loss of all the fingures or of the whole thumb or of their use would do so, as their loss would so materially affect function as to be considered as equal to the loss of a limb.

(*b*) "Preventing the recipient from contributing except partially, towards his livelihood."

(1) A disability, the result of service, as well as a wound or injury, which had the above effect would entitle the man to a pension of this degree.

(2) Some of the conditions that would prevent a man from contributing except partially, towards his livelihood would be partial loss of eyesight and hearing due to injury or shall concussion or other cause arising from field service, complete and irreparable loss of bone covering the brain, scarring of the face causing such disfigurement as to excite feelings of revulsion, dumbness, etc.

(3) A man suffering from any disability wound, injury or disease not coming under the two first degrees, contracted on or solely attributable to field or foreign service which made it absolutely necessary for him to be discharged from the army, would be entitled to this degree of pension.

(4) The degree of incapacity for earning a livelihood should be stated by the Medical Board, thus ½, ⅓, ¼, etc.

General Remarks.

1. A man's caste and social position must be given due consideration on assessing the amount he will be able to contribute towards his own livelihood. An Indian cannot adopt a new calling as readily as a European, nor would it be correct

No. G 9903-6—MILY. 21-14-588, DATED 13TH JANUARY 1916.

to assume that he can take up a calling which is against his caste or social position. For example we cannot assume that a Jat Sikh can do barber's work, or play a musical instrument for his livelihood.

2. Under the second portion (*b*) of the condition for each degree, pensions may be given for an illness resulting in disability if this was contracted on or solely attributable to field or Foreign Service.

3. It is often difficult to say if the disease has been contracted on or is solely attributable to field or Foreign Service but, as the man must have been passed as fit for such service before proceeding on it, the general assumption must be that this is the case. There may, however, be cases such as those of hernia, bubonocele, pyorrhœa, alvèolaire, internal piles, etc., where a careful examination may show that the condition must have been one of very long standing and have existed before the man proceeding on service. Even in this case a considerable aggravation of the condition through service would entitle a man to pension.

4. An Indian Soldier cannot be forced to undergo an operation, but any reasonable operation or treatment which, in the opinion of a Medical Board, would benefit him to such an extent as to remove him from one degree of pension to a lower one, or to render him fit to remain on in the service, if refused would make him liable to the award of a lower rate or to discharge as unfit for further service with the ordinary pension or gratuity to which he is entitled.

5. A wound or injury pension once allotted cannot be changed so a Medical Board should pay special attention to the probability of permanency of disability in assessing the degree of pension, and may find it necessary to grant additional sick leave or give further medical treatment before the grant of pension.

6. It is the duty of Government to cure its servants, as far as possible, before discharging them from the army provided the length of time for this is reasonable. It must be remembered that proper medical treatment in out of the way villages is often totally impossible.

7. It is the duty of the Medical Board to safeguard the interests of Government, by treating all cases of malingering with firmness and even severity, but in all *bona fide* cases of disability, the soldier should be treated as regards pension in a generous manner.

8. In all cases in which men are recommended or rejected for these pensions, the actual condition present must be described in detail, this should ordinarily be done in the statement of the case and the Board should say definitely to what it concurs.

APPENDIX.

The following will be added as sub-paragraphs (*g*) and (*h*) to paragraph 519 of the Standing Orders, Part I of the Mysore Imperial Service Lancers.

(*g*) When requisitions for compounders are made to the Medical Department by the Military Department only such men as are willing to subordinate themselves to the Military Regulation and discipline should be selected for employment. The Chief Commandant may, for any misconduct on the part of compounders attached to the Imperial Service Lancers Hospital, discharge them from the Military Department.

(*h*) Whenever the Chief Commandant considers that an offending compounder deserves dismissal from service, he shall bring the facts of the case to the notice of the Senior Surgeon. In case of disagreement between the two officers, the matter should be referred for the orders of Government.

Government Order No. 5081-5—Edn. 67-13-3, dated the 3rd November 1913, approving among other things of the recommendations of the Secretary to the Economic Conference in the matter of establishing public libraries and reading rooms.

2. Letter No. 1609, dated the 5th March 1915, from the Secretary to the Mysore Economic Conference, submitting a draft scheme in Kannada prepared by the Education Committee of the Economic Conference for the formation of rural libraries and reading rooms with a set of rules and a list of books and newspapers for such institutions.

Order No. 3059-69—Edn. 54-14-47, dated 4th January 1916.

The scheme proposes to allot a sum of Rs. 10,000 to be given as grants-in-aid to deserving institutions, the applications for grants being disposed of by the Education Committee with the restriction that in each case the maximum contribution towards the initial equipment of the institution does not exceed Rs. 100 and the maximum annual grant does not exceed one-fourth of the recurring charges subject to a limit of Rs. 15.

2. The recommendation is sanctioned, the charge being met by reappropriation of the grant for the improvement of villages. The scheme will be worked by the Education Committee for a period of one year.

3. The Deputy Commissioners of Districts and the Secretary, Economic Conference, are requested to stimulate local private effort in the direction of opening and maintaining well organised libraries and reading rooms in all important rural centres.

The rules as now framed in Kannada are approved.

The Secretary, Economic Conference, is requested to submit a set of the rules translated into English for record in this office.

Letter No 740—E. C., dated the 14th September 1915, from the Secretary to the Education Committee of the Economic Conference, submitting a draft scheme for starting Commercial Schools in a few taluk stations, and a copy of the Proceedings of the Sub-Committee that considered the question at its meeting on the 9th August 1915.

2 Unofficial note dated the 28th September 1915, by the Inspector-General of Education on the same subject

Order No. 3086-8—Edn. 19-15-38, dated 5th January 1916.

Government approve of the Inspector-General's suggestion that commercial classes at taluk stations may be opened after the teachers now attending commercial classes in Bangalore and Mysore, while under training in the Normal Schools complete their courses of training. They consider however that until some experience is gained of the working of such classes the teachers should be employed in existing Anglo-Vernacular or Vernacular Schools and required to hold Commercial classes in the morning or in the evening or both times for not more than an hour and a half each day as recommended by the Education Committee Teachers so employed will be given an allowance of Rs. 10 a month.

2. The Inspector-General of Education is requested to submit at once for the sanction of Government definite proposals for opening Commercial classes at four or more taluk stations as soon as the teachers referred to complete their course of training.

Exd.—C. R

Letter No. 740—E. C., dated the 14th September 1915, from the Secretary, Education Committee of the Economic Conference

With reference to the subject of Commercial Education included in the programme of the Committee for the current year, I am directed to state that a Sub-Committee consisting of Messrs S V Setti, V Subbramanya Iyer, and C Krishna Rao, was appointed to draft a scheme for starting Commercial Schools in taluk stations The Sub Committee met on the 9th ultimo and sent in their report which was considered and adopted with certain modifications at the meeting of the Central Committee held on the 28th August 1915.

No. 3086-8—Edn. 19-15-38, dated 5th January 1916.

The scheme as modified is briefly as follows:—

(1) That Vernacular Commercial classes be opened at four stations, *viz.*, Channapatna, Tiptur, Davangere and Shimoga;
(2) that the training given be of the elementary grade;
(3) that the course of study extend over a period of two years;
(4) that for the current year six teachers be trained.

The scheme recommended involves an annual expenditure of Rs. 480 for all the four schools proposed to be started, a monthly allowance of Rs. 10 being given to each teacher. The proposed expenditure is to be met from the funds at the disposal of the Education Department.

According to the resolution passed, I am to submit herewith for the orders of Government a copy of the scheme as revised at the meeting.

THE MYSORE ECONOMIC CONFERENCE, EDUCATION COMMITTEE.

Vernacular Commercial Classes.

Minutes of a meeting of the Sub-Committee appointed to consider and report on the question of holding Vernacular Commercial classes at taluk stations held on the 9th August 1915.

PRESENT.

Mr. S. V. Setti, B.A.
„ V. Subramanya Iyer, B.A.
„ C. Krishna Rao, B.A.

The following recommendations are submitted for the consideration of the Education Committee:—

(1) That Vernacular Commercial classes be established in connection with Anglo-Vernacular Schools at important stations. Arrangements may be made for opening such classes at four stations (Davangere, Tiptur, Channapatna and Shimoga) during the year 1915-16.

(2) That these classes be held outside regular school hours on three days in the week for an hour or an hour and a half each day.

(3) That admission to the class be restricted to pupils that have passed the III Vernacular Standard or to tradesmen's sons of not less than fourteen years of age who have education enough to understand the subjects taught.

(4) That a fee of 8 annas per month be levied from each pupil that attends the class.

(5) That the training given be of the elementary grade and that the subjects and syllabuses noted in the enclosure be adopted.

(6) That the course of study extend over a period of two years at the end of which period an examination may be held and certificates granted to those passing a satisfactory examination.

(7) That the examination be treated as one of the Local Examinations.

(8) That a monthly allowance of Rs. 10 be granted to the teacher to whom the work is entrusted.

(9) That for the current year six teachers be withdrawn and deputed to undergo special training in the Bangalore Commercial School for a period of three months and, if necessary, an expenditure up to Rs. 1,000 may be incurred.

ENCLOSURE.

Vernacular Commercial Classes.

Subjects.—

(1) Book-keeping (Indigenous and English systems).
(2) Commercial Arithmetic (Indigenous and English systems).
(3) Commercial correspondence and office routine (Vernacular).
(4) Commercial Geography.
(5) Elementary Banking.
(6) Shop Management.
(7) Penmanship.

No. 3086-8—Edn. 19-15-38, dated 5th. January 1916.

Syllabuses.—

(1) *Book-keeping.*—Definitions, the Journal, and the Ledger Subsidiary books, cash, bought and sold, bill and returns books, method of balancing accounts, hundis, cheques and bills of exchange, a merchant's accounts, household accounts.

Book-keeping in Kanarese by V. C. Huli of Dharwar, published and sold at Bellary by Rama Rao Brothers, price 8 annas, may be recommended.

(2) *Commercial Arithmetic.*—The first four rules, quick methods in their operations, reduction, multiplication and division of fractions and rules and principles governing them and operations with them. Tables of English and Indian systems of coins, weights, measures and time. Mental calculation of prices. Simple and compound practice. Problems, square and cubic measures (timber measurement in particular) ratio and proportion.

Simple interest, discounts (bankers' and trade), percentages, insurance, commission, income tax and simple problems in stocks and shares. Price and dividends. Rural and domestic arithmetic for the special class of students.

(3) *Correspondence and Office Routine.*—Forms and modes of addressing official, commercial and private letters. Paragraphing the contents. Punctuation. Capitals and other matters relating to the grammar and composition of letters. Filing of letters and references to them. Treatment of correspondence such as numbering use of commercial terms and abbreviations, etc.

Drafting letters similar to the specimen letters to be given. Filling in blank forms the required information, invoices, receipts, vouchers, cheques, promissory notes and price lists, letters of enquiry for goods and prices and replies. Acknowledgment of letters, money and goods. Letters of application for situation. Letters relating to the collection of accounts and bills.

Methods of duplicating.—Press copying.

Postal and telegraphic Regulations.—Stamps.

(4) *Commercial Geography.*—Geography and its principles. Distribution of land and water. Relations of Geography and Commerce.. Physical and political influences affecting man in his economic conditions. Means adopted by nations to improve commerce. Necessary conditions for the raising of products and for the existence of industrial and economic minerals. Devastating agents. Commercial towns, their situation, growth and prosperity. The regions of the world, cold, temperate and hot and their products, vegetable and animal. Occupations of man, fisheries, hunting, agriculture, manufacture and mining. Modes of transport, trade routes of the world, trading centres and migration.

The British Empire, India, Mysore and chief countries of Europe, America, Africa and Asia as regards their products, industries and communication. Commerce of the British Empire specially.

(5) *Elementary Banking.*—Money, functions, attributes and value. Coinage of England and India and their value at par. Articles used as currency at various times. Money of account and value and token money. Legal tender.

Banks.—Savings Banks.—Co-operative Banks.

(6) *Shop Management.*—Business methods, qualities and principles :—

System and order, neatness, cheerfulness, tact, courtesy, promptness, diligence, earnestness, uprightness, efficiency deliberation and decision and careful observation.

Knowledge of subjects. Meeting the wishes of the customers.

Organisation and advertisement.

No. 3545-8—Edn. 25-15-27, dated 26th January 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Note dated the 3rd August 1915, from the Secretary of the Education Committee of the Economic Conference on the subject of the funds required to organize and conduct, as an experimental measure, Continuation, Improvement, Adult Home Education, minor industrial and other classes of special instruction.

Order No. 3545-8—Edn. 25-15-27, dated 26th January 1916.

The Secretary, Education Committee, states that as much difficulty is now felt in providing funds for starting classes for special instruction of the kinds enumerated in the preamble, a grant of Rs. 25,000 may be placed at the disposal of that Committee to enable it and the District Committees to open such classes as an experimental measure and transfer them to the Education Department after they have begun to work satisfactorily. Government consider that there can be no objection to afford some facilities to the Education Committee and the District Committees to carry on special schemes of instruction of the kinds referred to which are outside the regular work of the Education Department. They are therefore pleased to sanction a grant of Rs. 10,000 for this purpose. The grant will be utilized subject to the following rules :—

(*a*) The Education Committee will, in consultation with the District Committees, apportion this amount among the eight districts in accordance with their requirements.

(*b*) The Committee should frame rules indicating the conditions under which the grants will be made and defining the limits within which the grant may be sanctioned by the District Committees and the Education Committee respectively.

(*c*) No grant should be made for more than six months, and the total grant in the case of a single institution should not exceed Rs. 200.

(*d*) As soon as a grant is sanctioned, the fact should be intimated to the Inspector-General of Education who will arrange to get the institution inspected departmentally at the end of the term for which the initial grant is sanctioned; and if the school is working satisfactorily will arrange either to take over the school under the management of the Education Department or for a further continuance of the grant from that department for such period as may be necessary.

(*e*) The Education Committee will be allowed complete latitude within the limits of the funds at their disposal in developing these institutions, while they are in an experimental stage, but in all technical matters the schools will be subject to the general authority of the Inspector-General of Education, and the officers of the Education Department will be at liberty at all times to inspect the schools and take steps to have the grant withdrawn or stopped if at any time it is found that the amount is not properly utilized.

2. The Inspector-General of Education is requested to arrange to provide the sum of Rs. 10,000 required for this year out of the sums at his disposal and apply for an additional grant should this be found absolutely necessary later on. Suitable provision will be made in the budgets from next year.

Examinations in the advanced grade in Commercial Subjects.

No. 3543-4 EDN. 26-15-3, DATED 26TH JANUARY 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Government Order No. 7792-3—Exmn. 9-13-2, dated 12th February 1914, sanctioning the holding of public examinations in the elementary grade of commercial subjects.

2. Government Order No. 669-70—Edn. 17-14-83, dated 10th August 1915, sanctioning the opening of advanced courses of instruction in commercial subjects in the Government Commercial School, Bangalore.

3. Letter No. 11900-523, dated 18th December 1915, from the Inspector-General of Education in Mysore, submitting proposals for holding higher grade examinations in commercial subjects annually.

Order No. 3543-4—Edn. 26-15-3, dated 26th January 1916.

The scheme for holding examinations in the advanced grade in commercial subjects in addition to the elementary grade, is approved.

2. The receipts and expenditure on account of the new examinations to be held in April 1916 are estimated by the Inspector-General of Education at Rs. 80 and Rs. 250 respectively. These estimates are accepted and the necessary provision will be included in the budget of 1916-17.

P. G. D'SOUZA,
Offg. Secy. to Govt., Depts. of Edn. & Agri.

To—The Inspector-General of Education in Mysore.
The Comptroller, Mysore Government, through Branch II.

Exd.—C. R.

No. 3543-4– Edn. 26-15-3, dated 26th January 1916.

No. 11900-523, dated Bangalore, 18th December 1915, from Rao Bahadur M. Shama Rao, Esq., M. A., Inspector-General of Education in Mysore, to P. G. D'Souza, Esq. B. A., B. L., Secretary to the Government of His Highness the Maharaja of Mysore, Education and Agriculture Departments.

Sir,

With reference to Government Order No 669-70—Edn. 17-14-83, dated 10th August 1915, sanctioning the opening of Advanced Commercial Courses of instruction in the Government Commercial School, Bangalore, I have the honour to inform you that it is proposed to hold an annual examination in the advanced grade of certain commercial subjects, commencing from this year. I request, therefore, that Government may be pleased to sanction the proposal.

The receipts and expenditure of the advanced grade of the examination are estimated for the current year at Rs. 80 and Rs. 250, respectively, so that the provision for expenditure in the next year's budget for Government Technical Examinations under 21 Scientific, etc., Departments, (11) Examinations, will have to be increased from Rs. 1,000 to Rs. 1,250. Expenditure incurred in connection with the examinations of the current year becomes payable only during next year.

A copy of the revised rules relating to the Government of Mysore Technical Examinations in all grades as passed by the Committee, is herewith submitted for the approval of Government.

I request the favour of your obtaining early orders of Government in the matter.

EDUCATION DEPARTMENT.

Notification D. No. dated.....

Government of Mysore Technical Examinations.

Commercial Examinations: Elementary, Intermediate and Advanced Grades.

1. Examinations in Commercial Subjects of the Elementary, Intermediate and Advanced Grades will be held at Bangalore, and at Mysore, every year, in the month of April. The dates and hours of the examinations will be notified at least two months before the examination. The examinations of 1916 will be held in as many as possible of the following subjects in the various grades: –

Elementary	Intermediate	Advanced
(1) Correspondence and Office Routine.	(1) Correspondence and Office Routine	(1) Commercial Correspondance, Law and Practice
(2) Book-keeping	(2) Book-keeping	(2) Book-keeping, Accounts and Auditing.
(3) Commercial Arithmetic	(3) Commercial Arithmetic	(3) Shorthand
(4) Shorthand	(4) Shorthand	(4) Typewriting
(5) Typewriting	(5) Typewriting	(5) (*a*) Banking and currency
(6) Banking	(6) Banking and Currency	(*b*) Political Economy
(7) Political Economy	(7) Political Economy and Elements of Statistics.	(*c*) Elements of Statistics
(8) Commercial Geography	(8) Commercial Geography	
(9) Handwriting and penmanship.	(9) Indexing and Precis writing	
(10) Commercial Languages	(10) Commercial Languages	

2. Only students of Commercial Schools and Colleges recognized by the Government of Mysore will be allowed to appear for the examinations, provided that students are certified by the heads of their institutions to have attended the class in each subject offered, for at least 75 per cent of the number of working days in the year in that subject. Attendance of students appearing from High Schools, will be as regulated by the rules governing these schools. Students who are certified by the heads of their institutions to have put in the requisite attendance in a year and to have received satisfactory training in any subject of any grade will be allowed to appear for the examination in that subject within the next three years, without being required to produce a fresh certificate of attendance.

3. To appear for the examination in a subject of a higher grade, a candidate will be required to have passed the examination in the corresponding subject of the lower grade, the examination being either the one conducted by the Mysore Education Department or the one held by a public body recognised by the Inspector-General of Education, as equivalent to that held by the Department. Those who were or are students of the Intermediate-in-Arts class of a College, and others who possess higher general educational qualifications, will, however, be permitted to appear for Commercial Examinations of the intermediate grade, without being required to pass the corresponding examination of the elementary grade, except in shorthand and typewriting.

A *bonafide* merchant is permitted to appear for examinations of the intermediate grade without passing the corresponding examination of the elementary grade, if he is certified to be fit, by the Headmaster of the Commercial School of which he is a student.

No. 3543-4—Edn. 26-15-3, dated 26th January 1916.

The examinations of the following bodies are, for the present, taken as equivalents to the corresponding ones of the Government of Mysore Technical Examinations :—

1.	The Madras Government Technical Examinations, Commercial Subjects	... All subjects.
2.	The London Chamber of Commerce ...	... All subjects except Typewriting.
3.	National Union of Teachers' Examinations	... All subjects except Typewriting.

4. Separate certificates will be granted for the subject or subjects comprised in each division of the Elementary, Intermediate and Advanced Grades. A Diploma will be granted to those who pass in the subjects comprised in any two divisions of the advanced grade. The minima for passing will be as laid down in the syllabuses of the various subjects.

5. Candidates who want to qualify themselves for a Diploma in Commerce will be required to pass a test in English Composition which at present, will be of the S. S. L C. Standard. Candidates appearing for either the Shorthand or Typewriting Examinations of the advanced grade will be required to have passed at least the examination of the elementary grade in the other subject. For the examination of 1916, it will be enough if students are certified fit for appearing for the examination in the other subject.

6. The following is the scale of fees payable by candidates appearing for the examinations :—

	Elementary	*Intermediate*	*Advanced*
For the subject or subjects comprised in each division in the Elementary, Intermediate and Advanced Grades.	Rs. 3	Rs. 5	Rs. 10

Fees should be paid into a Mysore Government Treasury. Fees once paid into the Treasury will, on no account, be refunded ; nor will it be reserved for a subsequent examination.

7. All candidates appearing from the same institution must select the same centre and their applications should be forwarded together.

8. All applications together with the treasury receipts should reach the Office of the Manager of the Mysore Local Examinations, Bangalore, not later than the 1st March, immediately preceding the examination. Separate application forms are to be used for different grades. The attendance certificates should reach the Manager not later than the 1st of April immediately preceding the examination. Application and attendance certificate forms will, on application, be supplied by the Manager.

Unconditional Gift by Mr. Hyder Sab of certain of his Lands for the Silk Farm at Channapatna.

No. 3035-41—A. & I. 249-14-8, DATED 3RD JANUARY 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Correspondence ending with letter No. 351, dated the 24th November 1915, from the Deputy Commissioner, Bangalore District, regarding the offer by Mr. Hyder Sab of Channapatna as a gift of certain lands and buildings belonging to him for the use of the Government Silk Farm at the place.

Order No. 3035-41—A. & I. 249-14-8, dated 3rd January 1916.

Mr. Abdul Quddus, President of the Mysore Silk Association, has, on behalf of his father, agreed to make over the four acres of land on which the Government Silk Farm at Channapatna is situated unconditionally to Government with the well, buildings and other appurtenances thereon with a view to the farm being extended in order to meet the requirements of this important industry. Government are pleased to accept the offer. The Deputy Commissioner, Bangalore District, is requested to have a suitable deed of gift executed by the donor. The appreciation of Government should be conveyed both to Mr. Hyder Sab and Mr. Abdul Quddus for their generous offer and they are also pleased to direct that a suitable tablet may be put up on the farm to mark the gift. The lands and buildings will be returned to the donor on payment of a reasonable price to be fixed by the Deputy Commissioner for improvements effected should the farm be closed at any time.

2. The Secretary, Agricultural Committee, is requested to arrange in consultation with the Deputy Commissioner to take charge of the lands and buildings and submit the proposals of the Committee for the proper utilization of the buildings.

Report on the Working of the Agricultural Department for 1914-15.

No. 3101-50—A. & I. 63-15-12, DATED 5TH JANUARY 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Report on the working of the Agricultural Department for the year 1914-15, received with the Director's letter No. 86, dated the 24th September 1915.

Order No. 3101-50—A. & I. 63-15-12, dated 5th January 1916.

Dr. Coleman continued in charge of the department during the year under report. Two Agricultural Divisions (Eastern and Western) consisting of four districts each were constituted during the year and placed under the Deputy Director and the Assistant Director of Agriculture with a view to enable the Director to pay more attention to the work of agricultural demonstration and improvement in the districts.

Agricultural Farms and Demonstrations.—In addition to the existing farm at Hebbal two new farms were sanctioned, one at Marthur in the Sagar Taluk and the other at Babbur in the Hiriyur Taluk. The Babbur Farm has not yet been opened for work. The most important part of the experimental work of the department was carried on at the Hebbal Farm.

A large number of tests and experiments have been carried out during the year and several useful conclusions and results have been obtained. A fairly large number of demonstrations were held. A new departure was taken by the department with a view to introduce Honge oil cake as manure in places where its use was not well known, and a large quantity, *viz.*, about 238 tons was purchased and sold by the department to private persons.

Implement Depot.—The depot is very popular and the demand for improved implements is steadily increasing. The value of implements sold was Rs. 16,678 as against Rs. 12,022 in the previous year. To enable raiyats of ordinary means to purchase improved implements, rules have been recently sanctioned for the sale of implements on the hire-purchase system.

Chemical and Biological Section.—In the Chemical Section, besides the work done for the Geological Dapartment, there was a considerable quantity of work done for the Agricultural Department in the analysis of soils, manures and sugar-cane juice of various varieties.

Spraying operations against the spread of Koleroga are being greatly extended and investigations into some important diseases of coffee, jola, paddy and sandal are being continued.

Agricultural School.—The school sent out its first batch of fully trained students. All the 14 candidates that appeared for the examination were successful and some of them have been employed in the department. Three short courses for the benefit of the raiyats were also held on the farm.

Agricultural Statistics.—A Committee (with the Director of Agriculture as President) was appointed to submit proposals for the improvement of the collection of agricultural statistics and its report is under the consideration of Government.

No. 3101-50—A. & I. 63-15-12, DATED 5TH JANUARY 1916.

Touring.—The Director toured 132 days during the year as against 97 in the previous year, while the Deputy and the Assistant Directors were out on tour for 150 and 224 days respectively against 69 and 73 days in the previous year. Though there has been a marked increase in the period spent by all the officers of the department on tour, it is necessary that the tours of the Deputy Director and other subordinate officers of the department should be properly regulated so as to avoid as far as possible rapid and hurried journeys.

General.—Government are pleased to observe that the report of the Director is an interesting record, giving evidence of zealous work in a number of useful directions, for which their acknowledgments are due to the Director and his Assistants.

P. G. D'SOUZA,
Offg. Secy. to Govt., Dpts. of Edn. & Agri.

Report on the Working of the Industries and Commerce Department for the year 1914-15.

No. 3151-200—A. & I. 27-15-8, DATED 5TH JANUARY 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Report on the working of the Industries and Commerce Department for the year 1914-15, received on the 17th August 1915 with the Director's letter No. 608, dated 17th July 1915.

Order No. 3151-200—A. & I. 27-15-8, dated 5th January 1916.

Erection of machinery and plant.—Of the work undertaken during the year, the best results achieved were in the erection of machinery and plant. The Director reports that at the beginning of the year 26 plants were at work, and 13 under erection and that during the year 32 new ones were taken on hand. The cost of the 71 installations is stated to be about 4½ lakhs of rupees and the direct profit to the owners about a lakh of rupees a year. The pumping installation on the banks of the Thungabhadra, the oil-mill at Bangalore and the rice mill at French Rocks are reported to have proved themselves exceedingly profitable concerns. Government agree with the Director that the evidence of enterprise given by the people in adopting these labour-saving appliances, though by no means remarkable, has, so far, been encouraging.

2. *Loans.*—The greater part of the machinery was purchased with the assistance of Government loans. Out of 75 applications for loans for a sum of Rs. 2,35,485, which came in for disposal during the year under review, 26 applications for Rs. 85,230 were sanctioned. Of these, 10 loans amounting to Rs. 43,750 were takavi loans and 16 loans aggregating Rs. 41,480 were under the hire-purchase system. The amount deposited by the parties under the hire-purchase system was Rs. 10,370 and the total amount advanced by Government was Rs. 74,860. The number of applications rejected or withdrawn was 41 involving Rs. 1,18,455. The total amount sanctioned by Government for industrial loans, since the creation of the department in 1913-14, including the loans granted in 1914-15, comes up to Rs. 1,30,394. A sum of Rs. 13,281 was recovered during the year.

3. *Sugar-mills and manufacture of jaggery.*—Of the three Government plants at Saggere, Haravu and Kunigal, it is reported, that owing to difficulties in connection with the supply of sugar-cane to the first two mills, due chiefly to the unfavourable character of the rainfall, very little work could be done at either of these stations but the results at Kunigal were satisfactory. Orders have issued authorising the sale of the last plant to a private party. Two new plants were established during the year, one at Shikarpur at Government cost to be handed over to private parties eventually, and another at Harihar. Experiments are being made with a steam heating plant at Agaram for dealing with larger quantities of sugar-cane than is possible in the existing installations. The operations during the year involved an expenditure of Rs. 3,776-1-0, whilst the receipts amounted to Rs. 3,954-12-7. The total capital expenditure on all the plants so far has been Rs. 56,714 and the total working expenses Rs. 14,526 and the total receipts Rs. 10,185. Though the results financially have been somewhat disappointing, these installations have been found to be of great educative value and have given considerable impetus to the adoption of improved methods of manufacturing jaggery. The Director is requested to submit a correct balance sheet for each of the installations separately, showing the net loss or gain on each concern after including the proportionate cost of establishment.

No. 3151-200—A. & I. 27-15-8, DATED 5TH JANUARY 1916.

4. *Weaving.*—The value of goods manufactured at the Government Weaving Factory during the year is reported to be Rs. 15,260, while the total sales amounted to Rs. 25,665-12-1, and the net expenditure to Rs. 18,984-15-0. The accounts of receipts and expenditure attached to the report do not show what the net loss or gain during the year was, after making allowance for the expenditure on teaching and demonstration. The Director is requested to submit a revised set of accounts showing clearly, capital expenditure, working expenses including interest on capital already invested and the final result.

In addition to the elementary instruction in weaving given in the factory, weaving demonstrations were held in 27 villages and 428 fly shuttles were supplied to the weavers as against 270 in the previous year. The Director is now engaged in some important experiments on small power looms driven by electric motors to be worked by single or small groups of artizans. The question of organizing a market for the disposal of the goods woven in the State under the improved methods of weaving is also under investigation.

5. *Tile Factory.*—The Mysore Tile Factory was re-started during the year but though the output has increased, the realisations have just covered the working expenses. The Tile Expert Mr. Burrows besides assisting in the working of this factory is reported to have investigated a number of sites for possible tile works. It is also stated that companies have been formed at Channapatna and Kunigal, to open Tile Factories while the Tile Factory at Tirthahalli has not as yet been completed. The work done in developing this industry has not yielded practical results. The Director is requested to see that at least half a dozen schemes are brought into working order before the year closes.

6. *Miscellaneous industrial work.*—The Director also assisted during the year in the development of several important schemes, such as sandalwood oil distillation, manufacture of pencils, soaps and paper pulp and wood distillation; but no large industries or joint stock concerns were started during the year.

7. *Statistical information.*—Besides reviewing the foreign rail borne traffic, very little other statistical information was published by the department. Government consider that it is very necessary to have accurate statistics about industries and trade in the State and have drawn the attention of the Director to the matter on former occasions. The Director is requested to give more attention to the subject during the current year and to arrange to choose at least two important industries and trades each year and publish full statistics thereon.

8. *Concluding remarks.*—The work of the department shows signs of steady growth. It has so far confined its activities to popularising some half a dozen types of machinery and plant and to the investigation of a few selected industries. The work done in the direction of trade and commerce is inappreciable. Government would be glad if in future the department will undertake new lines of work, including experimental work, and if the Director and the officers meet the representatives of the people more frequently with a view to encourage private initiative.

P. G. D'SOUZA,
Offg. Secy. to Govt., Depts. of Edn. & Agri.

Scale of Expenditure in the Sri Vyasaraya Matha.

No. 1780-2 -Muz. 266-15-2, dated 29th January 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Government Proceedings No. 2743-5—Muz. F. 398-09, dated 14th May 1910, fixing a scale of expenditure in the Sri Vyasaraya Matha at Sosale now under Government management.

2. Letter No. 682, dated 23rd November 1915, from the Muzrai Superintendent in Mysore, forwarding certain Srimukhas received from the Sri Swamigalu representing the inadequacy of the existing scale of expenditure in the Matha, and submitting proposals for the revision of the scale of expenses in the above institution.

Order No. 1780-2—Muz. 266-15-2, dated 29th January 1916.

It is observed that the present proposals involve an increase of Rs 7,657-15-6, over the existing scale of expenditure in the Matha; but the income of the institution has also improved largely owing to the more regular administration under Government management and there will still be sufficient savings annually from the income to meet the non-recurring charges of the institution.

2. Many of the items (increases to pay of servants, etc.,) are due to increased scale of wages and prices and even the revised rates are low enough. The allowances to relatives and dependants of the present and past Swamis do not also appear to be extravagant. The increase in the item of samaradhana is somewhat large, but the Swamigalu seems to be somewhere of a liberal turn of mind in such matters, and according to usages of Mathas and orthodox opinion, expenditure in this direction is highly commended. The increased provision made for Pathasala and Pandits and pupils is all in the right direction.

3. As the scale now proposed is well within the means of the institution and is otherwise suitable, Government are pleased to sanction the same as per statement hereto annexed. The Comptroller is requested to arrange for payment at the Taluk Treasury, T.-Narsipur, on bills prepared and presented by the Swamigalu as regards items mentioned in I. A. (Establishment) II (Nityakatle) and III (Annual charges) under the month in which they fall due. As regards expenditure under Patasala I (*b*) and allowances I (*c*) payment will be made on bills countersigned by the Muzrai Superintendent.

4. The Muzrai Superintendent is requested to see that the cash grant from the Travancore Government is regularly collected and credited to the Matha Funds and that early steps are taken for the redemption of the Matha properties still under mortgage. As the income of the Matha consists largely of profits from landed properties, every care should be taken to see that they are properly managed and that sufficient fund is accumulated for the early restoration of the Matha buildings at Sosale.

V. R. THYAGARAJA IYER,
Secretary to Govt., Rev. Dept.

To—The Muzrai Superintendent in Mysore, returning [illegible] ...res.
The Deputy Commissioner, Mysore District.
The Comptroller, Mysore Government.
The Swamigalu with a Vignapanapatrika.

Inspection of the Chief Commandant's Office.

No. 17—E. A. C., DATED 22ND JANUARY 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

1 Note dated the 3rd April 1915, on the system of work in the Chief Commandant's office by Mr N. Madhava Rao, Assistant Secretary to Government, Efficiency Audit Branch.

2 Memo No. 914, dated the 26th July 1915, from the Officiating Chief Commandant, Mysore State Troops, forwarding his remarks on the several points raised in the above

3. Comptroller's Memo No 316, dated the 17th September 1915, containing his views on the points pertaining to accounts, cash and other cognate matters referred to in the note.

Order No. 17—E. A. C., dated 22nd January 1916.

The note shows that large sums of money which should have been either credited to the Treasury or disbursed to the individuals concerned, have in several cases been retained for long periods and utilised for office contingencies and other current expenses. The amounts thus remaining undisbursed or undisposed of should at once be refunded to the Treasury, if details of the claims are not traced and the proper claimants are not forthcoming within a reasonable period. The permanent advance of the office has been raised to Rs. 500 in Government Order No. 191-2—Mily. 181-14-4, dated the 7th July 1915, and there is no reason why any other funds received in the office should be used for current expenses.

2. The note discloses great laxity in granting advances to officials and others and in effecting recoveries. It is hoped that the outstanding amounts will be soon recovered and that in future the provisions of the Civil Account Code as regards the grant and adjustment of advances will be strictly followed.

3. These irregularities were pointed out and ordered to be discontinued in Government Orders Nos. 341-2-48—Mily. dated 15th August 1908, and 305-6—Mily. 145-08-2, dated 31st August 1909, to which attention will again be drawn.

4. There is no sufficient reason to have a Band Contingencies Fund as suggested by the Chief Commandant. Rules regulating the levy of fees for supplying the Military band to private individuals and the amounts payable to the men and to be credited to the Treasury may be framed by the Chief Commandant and submitted for the approval of Government.

5. The observations made in the note regarding the purchase of clothing, etc., will be considered in passing orders on the audit report of the Military Stores.

6. The Office Manual may be revised and brought up-to-date on the lines indicated. Early steps may also be taken for the arrangement of the English and Vernacular records and the destruction of the unserviceable ones, as per standing orders of Government. The Mahratti records may be sent to the Secretariat for scrutiny and disposal.

7. As regards the preparation of arrear lists and statement of periodical returns, library arrangements, etc., it is hoped that the rules of office procedure issued with Government Order No. G. 5203-51—E. A. 4-14, dated the 23rd November 1914, will be strictly followed. The detailed suggestions made, regarding the internal arrangements of the office will be referred to the Chief Commandant for consideration.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Correspondence ending with letter No. 1255—89-07, dated the 27th July 1915, from the Inspector-General of Prisons in Mysore, submitting proposals for the systematic inspection of offices under his control.

Order No. 43—E. A. G., dated 29th January 1916.

The arrangements proposed by the Inspector-General of Prisons for the inspections of offices, Jails and Lock-ups pertaining to the Prisons Department are approved with slight modifications as shown in the appendix to this order.

2. The Inspector-General of Prisons is requested to fix the period of the year during which the annual inspections should be held and intimate the same to Government.

D. M. NARASINGA RAO,
Secy. to Govt., Gen. Dept.

To—The Inspector-General of Prisons in Mysore.

Exd.—C. R.

No. 43 –E. A. G., dated 29th January 1916.

Arrangements for the Periodical Inspection of Offices, Jails and Lock-ups under the Control of the Inspector-General of Prisons in Mysore.

The Offices under the control of the Inspector-General of Prisons in Mysore are:—

1. The Office of the Inspector General of Prisons.
2. The Central Jail, Bangalore.
3. The District Jail, Mysore.
4. Lock-ups. (6 District Lock-ups, 1 Special Lock-up and 71 Taluk Lock-ups including those in the Jahagirs of Yelandur and Sringeri.)

2. The Jails will be inspected once a year by the Inspector-General of Prisons and the Superintendents concerned. The Lock-ups will be inspected by the Inspector-General of Prisons, once a year, and the District Magistrates once in six months.

3. In the case of the Jails, the questions for inspection will be the following—

General.

(1) What is the capacity of the Jail?

(2) What is the population of the Jail on the day of visit; males and females separately?

(3) What arrangements exist for conservancy and drainage?

(4) Is the water-supply wholesome and sufficient?

(5) Are articles of rations good in quality and issued and distributed according to prescribed scales?

(6) How do prisoners appear in health and in person (cleanliness)?

(7) Are their clothing and bedding sufficient and clean?

(8) Is there a table of task prescribed for each industry and labour exacted according to the table and is any prisoner suffering from excess of work?

(9) What separation of classes exists?

(a) Are habituals separated both by day and night, from casuals?

(b) Are Juveniles separted from adults, both by day and night?

(c) Are female prisoners thoroughly screened from males?

Buildings

(10) What is the condition of Jail buildings?

(11) What is the condition of Hospitals, Quarantine and Segregation sheds?

(12) Is accommodation sufficient and suitable for office? Are the rooms and the premises kept clean?

Inspection of Office.

(13) Is an attendance register in use? Is the attendance regular? Who checks the register daily?

(14) How many clerks are working in each branch of the office and what is the qualification of each clerk?

Service registers and lists of establishments, etc.

(15) Is an up-to-date list of the establishment, both clerical and menial, maintained?

(16) Is a record of the qualifications and services of the ministerial officers maintained up-to-date ?

(17) Are service registers maintained both for officials and menials, permanently holding appointments and brought up-to-date ?

(18) Are these registers arranged in order and kept in the records in a box ? Who keeps the key of the box ?

(19) Is an office order book maintained ? Are orders of leave, punishments, etc., regularly recorded and given effect to ?

(20) Is a register of applications for appointments maintained and are selections made therefrom ?

(21) Are all appointments made in accordance with rules pertaining to the Department ?

Distribution of work.

(22) Are there lists of duties which each clerk has to do ? Is the work assigned to each official sufficient without being excessive ?

Arrear Lists.

(23) Does every official submit once a month a list of references pending with him ? Are these lists consolidated by the ministerial Head (Jailor) and is a consolidated statement submitted by the 5th of the month following ?

(24) Are these lists scrutinized carefully by the Jailor and reminders sent promptly where necessary ?

Reports and Returns.

(25) Is a statement of periodical reports and returns maintained and kept up-to-date? Are the due dates and the dates of actual submission and the names of clerks responsible for their preparation noted therein ? Is it scrutinized monthly by the Head of the Office ? Which are the returns, if any, overdue at the time of inspection ?

Furniture List.

(26) Is a list of furniture maintained ? Are all articles of furniture entered therein together with their cost and date of purchase, etc., of each ?

(27) Is the list verified once in a quarter and the result reported to the Head of the Office ?

(28) What is the condition of furniture ? Is a note made in the furniture register of all articles lost or which have become unserviceable ? Is the furniture adequate to the needs of the office or more than necessary ? What is the condition of furniture kept ?

Stationery and Forms.

(29) In whose custody is the stationery ? Are the stock and issue registers maintained ? Are they submitted monthly for the inspection of the officer in charge ? Is a verification by stock taking done once a year ?

(30) Is a general indent book maintained for monthly issue of stationery? Are old and unserviceable articles sold by public auction and the proceeds credited to Government?

(31) Who keeps the stock of forms and registers? Where are they kept? Are they properly arranged? Are all receipts and issues noted in a register?

(32) Is a register of periodical issue of stationery maintained? (*Vide Rule 36 of the Stationery Rules*).

File of Standing Orders.

(33) Is a complete set of the standing orders of Government maintained? Are circular instructions received from the superior authorities maintained in separate files? Are those orders and circulars provided with a table of contents and if bulky also an index?

Library.

(34) In whose charge is the Library? Where is it kept?

(35) Is a register kept for entering books and publications and is it written up-to-date?

(36) Is a catalogue of the Library maintained up-to-date?

(37) Are all books in the Library correctly labelled and deposited in their appropriate places?

(38) Are all correction slips pasted in the volumes of enactments, rules, etc.?

(39) Are any books issued without a receipt or lent to strangers without the permission of the head of the office?

(40) Is a monthly report of books removed and not returned submitted?

(41) Are cases of loss of or damage to any books reported promptly and orders obtained for their replacement?

Correspondence and Registers.

(42) Are registers properly maintained? What is the number of registers maintained? (A few entries in the admission and release registers and property registers may be checked).

(43) Are the registers of inward and outward correspondence properly maintained with references regularly marked?

(44) How many of such registers are maintained? Are a peon book and tappal book maintained?

(45) Are the registers written up neatly? Are the entries concise and clear?

(46) Are all receipts classified in the manner laid down in Rule 11 of the General Rules of Office Procedure?

(47) Is there any delay in the fair copying and despatching of letters? Are all papers despatched invariably on the day they are signed or the following day? A few issues may be examined with reference to the refer book, peon book and tappal book.

(48) Is the issue register checked once a month by the Jailor?

(49) Is an amad register maintained to enter all covers, as they are received in the Jail?

(50) Is a separate petition register maintained?

(51) Is there any abnormal delay in the disposal of petitions?

(52) Are all the registers examined periodically by the Jailor and the Superintendent and signed by them in token of their inspection?

(53) Are warrants securely kept in the custody of the Jailor and are dates of release noted thereon correct? (A few may be examined).

Cash and Contingencies.

(54) Are the following books maintained in addition to the general cash book and contingent register?

1. General ledger or classified abstract of the monthly totals of the cash book.
2. Order book for contingent charges.

(55) Are contingent and general cash registers written up-to-date? Does the cash on hand agree with the book balance?

(56) What is the amount of the permanent advance? Is an account of it kept correctly?

(57) Is there any money on hand awaiting remittance to the Treasury or payment to parties? Details may be furnished

(58) Is the abstract contingent bill drawn at the end of each month in the manner laid down in Article 83 of the Civil Account Code and are the initials of the officer obtained?

(59) Is the expenditure kept within the Budget grant?

(60) Is the expenditure on office contingencies incurred under proper sanction and on necessity arising therefor?

(61) Are the detailed contingent bills submitted with all vouchers within the first week of the succeeding month? Are all disallowances promptly deducted from the succeeding bills?

Is the account of service postage labels correctly written up? Who keeps them and where? Does the stock on hand agree with the book balance?

(62) Are salary bills prepared with reference to the attendance register, leave register and office order book? Are drafts of pay bills kept?

(63) Is an acquittance roll maintained? Are all salaries drawn duly disbursed and proper receipts taken therein? Is a stamped receipt obtained for payments of over Rs. 20? Is the register examined every month by the Superintendent?

(64) Are the bills and payments entered in the cash book?

(65) Is undisbursed pay shortdrawn invariably in the next pay bill?

(66) Is necessary sanction obtained for drawing the pay or allowance of any incumbent requiring sanction of the higher authorities?

(67) Are all amounts drawn on travelling allowance bills disbursed and acquittance taken? Are drafts of the office copies of the travelling allowance bills maintained in a register?

Is there any undisbursed tavelling allowance kept? Is undisbursed amount disposed of in accordance with rules laid down in Government Order No. Fl.2187-235—S. & A. 63-15-4, dated 19th November 1915.

Have personal claims of officers to pay, and increments discharged without delay? If any are delayed what is the cause for the same?

(68) Are pension applications prepared and submitted in time?

(69) How many cases are pending and why?

Records.

(70) Are the records properly kept?

(71) What system is followed in the arrangement of records, whether subjectwar or chronological?

(72) Are all the records sorted according to the prevailing system? If not, what is the quantity of papers remaining to be sorted? What time is necessary for completing the sorting?

(73) Have rules been framed for regulating the preservation and destruction of records? Have all time-expired papers been eliminated according to rules?

Manufacture Registers.

(74) Are the stock books of raw materials and manufactured articles up-to-date? (A few items may be checked).

(75) Are raw materials issued only on indents passed by the Superintendent and are articles manufactured therefrom duly noted in the indents concerned and properly appriced?

(76) What is the amount of outstanding debts and are they being collected regularly?

(77) Are the sale proceeds of manufactured articles given to the Chief Jailor or the Superintendent at the end of each day?

Miscellaneous.

(78) Is an inspection minute book maintained and written up as laid down in para 4 of Government Order No. 10870-918—E. A. 43-14-1, 10th April 1915?

(79) Extent to which points noted for action at previous inspections have been attended to.

(80) Any irregularities or informalities observed in the course of inspection, whether connected with the printed questions or not and suggestions, if any, for improving the efficiency of the working of the office.

4 Lock ups.

I Number of wards or cells in each Lock up

II Means of ventilation by doors, windows, openings in the walls or roofs

III Number of prisoners the Lock up can contain allowing the required space to each prisoner according to rules

IV Number of convicted males and females

V Number of undertrial prisoners, males and females

VI What separation of classes exists?

VII Health and appearance of inmates

VIII Arrangement for conservancy cooking treatment of the sick and epidemics

IX Whether at labour or not

X Cleanliness of buildings grounds gardens and wells

XI State of repairs of buildings

XII Condition of registers, etc, prescribed

Are they properly maintained?

XIII Condition of furniture and other Government property.

XIV Date of inspection

XV Remarks and suggestions

5. In respect of the office of the Inspector-General of Prisons, questions 10 to 73 and 78 to 80 above will be adopted with the exception of Nos 11, 42 and 53 and the words Jail, Jailor and Superintendent will be respectively substituted by office, ministerial Head of Office and the Head of the Office.

Mysore-Arsikere Railway.

No. 1811-16—Ry. F. 47E-15-16, dated 5th January 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Read—

Government Order No. 1667-72—Ry. F. 47E-13-14, dated 8th June 1914, sanctioning a medical staff with equipment costing Rs. 8,182 per annum for the Mysore-Arsikere Railway for a period of one year in the first instance.

2. Government Order No. 1301-06—Ry. F. 47E-14-15, dated 18th December 1914, sanctioning increased salaries of Rs. 120 and 40, respectively, to the Assistant Surgeon and one of the Sub-Assistant Surgeons posted to the Dispensaries opened on the line, thereby raising the cost from Rs. 8,182 to Rs. 8,542 per annum.

3. Letter No. 10407—Fl. E. 44, dated 22nd and 23rd October 1915, from the Engineer-in-Chief, State Railway Construction Department, representing that the continuance of the establishment is necessary till the completion of the work and forwarding, for sanction, a proposition statement of establishment costing Rs. 9,057 per annum.

4. Note No. 318, dated 7th and 8th December 1915, from the Secretary for Railways, recommending sanction to the above proposition statement.

Order No. 1811-16—Ry. F. 47E-15-16, dated 5th January 1916.

Government agree that in the interests of work, medical aid is necessary and the accompanying Proposition Statement of establishment costing Rs. 9,057 per annum is provisionally approved.

2. The cost of the establishment is debitable to the Capital Account of the Mysore-Arsikere Railway under " XII General Charges, (*e*) Medical and Sanitation " and necessary provision has been made in the revised project estimate submitted to Government for sanction.

4	R 6356—L R 383 14-7	4	Oblasetty and Kondappa, Manchenahalli, Gowribidnur Taluk	Informs them that Survey Nos 82—1 and 82—2 cannot be given back to them as they have been sold by the orders of a Civil Court and that Survey No 209 has been ordered to be continued as inam.
5	R 6359—L R 155 14-4 ..	4	Sivalingappa and others of Anaji, Davangere Tk.	Informs them that as it is reported there is still sufficient gomal and kharab lands and tankbed for the grazing of their cattle and that there is no assessed land available for cultivation in the village, Government decline to interfere with the Revenue Commissioner's order granting thirty acres out of gomal Survey No. 369 of the village for cultivation.
6	R 6360—L R 155-14-4 . .	4	Rev. Commissioner ...	Forwards a copy of the above endorsement.
7	R 6362-4—L R 298-15-2	4	Rev. Comr. and Survey and Inam Supts.	Sanctions the appointment of a Talawar for Tarikalnala village, Hunsur Taluk and the grant to him of Survey No. 55 as Talawar and service inam and directs that the land be assessed in consultation with the Superintendent of Survey and Settlements for the purposes of accounts and of levying local cesses.
8	R 6433—L R 72-15-14 ...	5	Compiler, *Mysore Gazette*	Notifies the boundaries of Survey No. 31 of Arelekatte village, Channagiri Taluk, the acquisition of a portion of which was sanctioned in Government Notification No. R. 1369—L R. 26-14-14, dated 28th July 1915.
9	R 6468-70—L R 293-15-6	7	Rev Comr, Sur, Supt. and Secy., Econ. Conference	Sanctions the grant of one hundred acres of land out of gomal Survey No. 77 in Chikmandagere

Serial No.	Proceedings: Number	Date	To whom sent	Subject and Order
				village, Krishnarajapete Taluk, at an upset price of Rs. 2 per acre to Shanbhog Byrappa of Sakshibidu village for cultivation under the rules for the creation of large landed estates, and directs that a mutchalika should be taken from the shanbhog as directed in Rule 17 of the rules before he is put in possession of the land.
10	R 6478-9—L R 128-15-45	7	Rev. Comr. and Comptr.	Sanctions two bills aggregating Rs. 336-2-0 being the cost of printing 200 copies of the Kadur District hand book and the Kadur District Map.
11	R 6480-2—L R 717-14-3	7	Rev. Comr., Excise Comr. and Dy. Comr., Mysore	Records the Revenue Commissioner's letter submitting the Mysore Deputy Commissioner's report regarding the disposal of darkhasts in the Hunsur Taluk and stating that both the Sub-Division Officer and the District Excise Officer have been asked to see that the darkhasts for lands included in date reserve lists in the taluk are not unnecessarily delayed.
12	R 6483—L R 231-15-2 ...	7	Rev. Commissioner ...	States that the allotment of gomal lands for the Davangere town may be disposed of by him under Section 39 of the Land Revenue Code.
13	R 6484—L R 421-12-2 ...	7	Do ...	Referring to his letter as to the powers of revenue officers in regard to certain matters connected with inam villages under Government management, invites his attention to Government Order No. 204—P. F. 43-04, dated 14th August 1903, and returns for disposal the files relating to the appeals of Puttaiya of Sarvamanya Sogala village, Channapatna Taluk, against the Deputy Commissioner's Order evicting the petitioner from Survey No. 141 of the village.
14	R 6485-6—L R 11-5-115...	7	Rev. Comr. and Survey Supt.	Sanctions the appropriation of occupied Survey No. 556-4, in Hardanahalli village, Chamrajnagar Taluk, for building purposes and the writing off the accounts of the assessment thereon.
15	R 6489-90—L R 61-15-21	7	Rev. Comr. and Comptr.	Sanction a refund bill for Rs. 125 in favour of shanbhog Rangappa of Govinkovi village, Honnali Taluk, being the amount contributed by the villagers towards their share of cost for the construction of a temple in the village and credited to village improvement funds, but which has to be returned to the villagers as no grant-in-aid is allowable for the purpose from the village improvement fund.
16	R 6513—L R 5-15 ...	7	Ere Gowda, Ballur, Belur Taluk	Informs him that there are no grounds to revise the order of the Deputy Commissioner, Hassan District, rejecting his claim to the Pateli Office of Ballur village on the ground that he is not the nearest heir to the last Baravardar and that there are no evidences in support of his alleged adoption by the last Baravardar and directs him to establish his claim, if any, by means of a regular suit.
17	R 6514-6—L R 523-14-6	7	Sur. Supt., Rev. Comr., and Dy. Comr., Shimoga	Records the Survey Superintendent's letter reporting with reference to Government Order No. R. 12-14—L. R. 523-14-4, dated 2nd July 1915, passing orders on the complaint of Channabasappa Gowda of Ragihosahalli, Kumsi Sub-Taluk, regarding certain markings as to cart-track foot-path, etc., in respect of his lands in the re-survey map of the village that the measurer showed the footh-path and the cart-track on the map as a result of local observation and enquiry in accordance with the orders then in force and that since the year 1907, no new track can be shown on the map of a village until the officer

FINANCIAL

SECTION 1—GENERAL FINANCE

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR JANUARY 1916.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
1	Fl 2909-10—10-15 35 ...	4	Mily. Secy. to H H. the Maharaja and Comptr	Directs the inclusion of the name of Messrs. C Lazarus & Co, Calcutta, in the list of approved firms.
2	Fl 2922 ...	4	Mr. N. Kothandaramiah, Timber and Furniture Supplier, Bangalore City.	Informs him that he may apply to the Head of the Department concerned for including the name of his firm in the list of approved firms.
3	Fl 2923—10-14-202 ...	4	Secy. for Railways ...	Sanctions his recommendation for including the name of Mr. T Venkatramasastri, Hard-ware Merchant, Bangalore City in the appendix to Government Order dated 23rd December 1913.
4	Fl 2932—102-15-2 ...	4	Comptroller. ..	Informs him that Mr S. Venkatarangam, B.A, B.L., Officiating Assistant Comptroller, will not become eligible to draw the local allowance of Rs 50 recommended on his behalf until he passes the prescribed tests.
5	Fl 2934—116-15-2 ...	4	Comptr., P. W. and Rys.	Sanctions his proposal for the selection of Examiners for the Divisional Accounts Examination, as far as possible, from other offices and for the grant of remuneration to them.
6	Fl 3070—16-15-45 ...	6	Muz. Superintendent ...	Declines to sanction the grant of an advance for the purchase of a motor car subject to deduction therefrom of the balance of the advance already sanctioned to him in Government Order dated 18th April 1913, for purchasing a motor cycle
7	Fl 3086—7-15-33 ...	7	Dy. Comr., Mysore Dt.	Forwards for disposal, a petition received from Mr. T. Sreenivasa Rao, Inamdar of Tirumalli village, praying that, as the loan of Rs. 3,000 granted to him and his brother on the mortgage of their share of the said village, has since been discharged in full, the management of the village which still continues to be in the hands of Government, may be restored to him.

Serial No	Proceedings			Subject and Order
	Number	Date	To whom sent	
8	Fl 3196-7—93-15-4 ...	10	Comptr. and Dy. Comr, Mysore Dt.	Approves of the draft of the deed to be taken from Ammanniamma, widow of the late Mr. B. Gopalengar, Inamdar of Harihanpur village, in connection with the continuance of the Inam village under Government management until the balance of the loan and the proportionate cost of the restoration of the Hemagiri anikat and its maintenance charges are fully paid.
9	Fl 3200—2-15-29 ...	10	Comptr., P. W. & Rys.	Sanctions for reasons explained the grant of Rs. 58+2 as pay in the grade of Rs. 50—4—70 to Mr. Y. Narasimhaiya, B A., temporary account clerk, Railway Construction Section, transferred as Accountant, Shimoga Division.
10	Fl 3206-8—12-15-28 ...	10	Comptroller, Comptr., P. W. and Rys. and Secy., for Rys.	Sanctions temporarily an additional establishment of four account clerks on Rs. 25—35 each and a peon on Rs. 8 for the audit and account work of the Railway Constructions and Surveys
11	Fl 3220—9-15-66 ...	11	Dy. Comr., Bangalore Dt.	Declines to grant a further advance of pay to Mr. B. S. Ranoji Rao, City Magistrate, for making some repairs and additions to his house in the Basavangudi extension for the purchase of which an advance of six months' pay was sanctioned in Government Order dated 1st June 1915.
12	Fl 3221-2—36-15-3 ...	11	Comptr. and President, Municipal Council, Mysore.	Directs that the balance of Rs. 9-1-4 erroneously shown as recoverable from the President, Municipal Council, Mysore, be written off and the Mysore Weavers' Line accounts finally closed.
13	Fl 3223—10-14-25 ...	11	Chief Comdt., Mysore State Troops.	Informs him that the firm of Messrs Bright & Co., Bangalore, should be regarded as a petty shop which it is not desirable to include in the list of approved firms, as the stock in trade of the firm is reported to be only Rs 2000.
14	Fl 3225—57-15-4 ...	11	Secretary, Insurance Committee.	Records the Proceedings of the meeting of the Mysore State Life Insurance Committee, held on the 27th November 1915.
15	Fl 3304-6—129-15-1 ...	12	Comptr., Comptr. P. W. & Rys., and Secy., P. W. D.	Authorises the Comptroller to place at the disposal of the Public Works Department the sum of Rs. 25,000 provided under certain heads for town planning operations in the current year's budget.
16	Fl 3335—111-15-4 ...	12	Rev. Commissioner ...	With reference to the recommendation of the Deputy Commissioner, Mysore District, for the grant of a sum of Rs. 540 to Mr. Nanjaraj Urs, son of the late Mr. Siddaraj Urs, Inamdar of Tumbanerle village, Nanjangud Taluk, from the revenues of the village, to enable him to pay off a decree, states that, as the realizations from the mortgaged property of the Inamdar are not sufficient even to pay the annual interest due to Government and the prospect of recovering the loan is itself very doubtful, Government are not disposed to pay him any portion of the revenues of the village.
17	Fl 3353—56-15-13 ...	15	Mr. P. Palpu, L.M. & S., D.P.H., Supt., Central Jail.	Informs him that Government are unable to treat his case in a special manner and to exempt him from the operation of Rule 26 of the Insurance Rules.
18	Fl 3356—10-15-42 ...	15	Mr. Sivaram Bharadwaj, Proprietor & Manager, Hardware Factory, Mysore.	Informs him that he should address the Executive Engineer to whom he has supplied stores in the matter of including his name in the appendix to Government Order dated 23rd December 1913.

Serial No.	Proceedings: Number	Proceedings: Date	Proceedings: To whom sent	Subject and Order
19	Fl 3413-4—10-15-44 ...	18	I -G. of Edn. & Comptr	Approves, as a special case, of the action of the Inspector-General of Education in permitting the Superintendent, Chamarajendra Technical Institute, to purchase coal required for the Institute from the Madras and Southern Mahratta Railway Company —an Agency not included in the Appendix to Government Order dated 23rd December 1913.
20	Fl 3472—9-15-71 ...	21	Chief Engineer	Informs him that it is obviously inadmissible to grant the house building advance applied for by G Venkatasubbaiya, a temporary Sub-Overseer whose tenure of appointment as such is itself uncertain
21	Fl 3474 ...	21	Messrs. Hatheembhoy & Co., Hardware and Machinery Merchants, etc., Perianna Maistry Street, Madras.	Informs them that they should, in the first instance, address the Head of the Office or Officer to whom they wish to supply articles in the matter of including their firm in the list of approved firms.
22	Fl 3507—126-15-2 ...	22	Comptroller ...	Sanctions the purchase of two bicycles at a cost not exceeding Rs 350 for the use of the Comptroller's Office, with the observation that the old and unserviceable machines should be disposed of by public auction, their sale proceeds being credited to Government.
23	Fl 3508—41-15-2 ...	22	Comptr., P. W. & Rys	Sanctions a revised scale of menial establishment for the office of Comptroller, Public Works and Railways providing for six permanent peons on Rs. 8 each, a sweeper and watchman on Rs 7 and 6 temporary peons on Rs 7 each
